

Change Worksheet Request  
Generic “Umbrella” PRA Package  
CMS-10398, OMB 0938-1148

The burden that was requested and subsequently approved set out the *annual* burden when it should have set out the *total* 3-year burden. Consequently, we request that the number of Responses is corrected to read “3,360” and the Hour burden is corrected to read “86,240.” These changes will not affect our burden estimates since those estimates were set out in the ICR’s Supporting Statement.

We respectfully request approval of these changes within 3-weeks or by Friday, December 9, 2011. We understand this change will be submitted under the change worksheet process.
