Data Plan: 01

Title: RPG Intervention Services

Description: Parents under investigation by CPS due to substance abuse and in danger of having their children removed, but have opted to receive RPG services.

Data Type: treatment

Indicators

| Child Indicators | | | | |
|------------------|------|-----------|---|--|
| Select | Code | Case Data | Name | Description |
| | C1 | | Children remain at home | Percentage of children identified as at risk of removal from the home who are able to remain in the custody of a parent or caregiver through RPG case closure |
| | C2 | | Occurrence of child maltreatment | Percentage of children who had an initial occurrence and/or recurrence of substantiated/indicated child maltreatment within 6, 12, 18 and 24 months after enrolling in the RPG program |
| | C3 | | Average length of stay in foster care | For children discharged from foster care, their average length of stay (in days) from date of most recent entry into such care until date of discharge |
| | C4 | | Re-entries to foster care | Percentage of children returned home from foster care that re-entered foster care in less than 6, 12, 18 and 24 months |
| | C5 | | Timeliness of reunification | Percentage of children who were reunified in less than 12 months from the date of the most recent entry into foster care |
| | C6 | | Timeliness of permanency | Percentage of children placed in foster care who, in less than 24 months from the date of the most recent foster care placement, achieved a) a finalized adoption or b) legal guardianship |
| | C7 | | Prevention of substance-exposed newborns | Percentage of pregnant women who had a substance exposed newborn (first or subsequent), as detected at birth |
| | C8 | | Children connected to supportive services | Percentage of children who were assessed for and received the following supportive services: developmental services, mental health or counseling, primary pediatric care, substance abuse prevention and education, substance abuse treatment, educational services, and other supportive services |
| | C9 | | Improved child well-being | Percentage of children who show an increase in socioemotional, behavioral, developmental and/or cognitive functioning |

Adult Indicators

| Select | Code | Case Data | Name | Description |
|--------|------|-----------|--|--|
| ✔ | A1 | ✔ | Access to treatment | Percentage of parents or caregivers who were able to access timely and appropriate* substance abuse treatment; number of days between program entry and treatment entry |
| ✔ | A2 | ✔ | Retention in substance abuse treatment | a) Percentage of parents or caregivers referred to substance abuse treatment who remained until treatment completion; and b) Average length of stay in treatment for referred parents or caregivers |
| ✔ | A3 | ✔ | Substance use | Percentage of parents or caregivers who report a reduction in substance use, as measured by number of days of use in past 30 days at treatment intake and discharge |
| ✔ | A4 | ✔ | Parents or caregivers connected to supportive services | Percentage of parents or caregivers who were assessed for and received supportive services that include: a. Primary medical care, b. Dental care, c. Mental health, d. Child care, e. Transportation, f. Housing assistance, g. Parenting training/child development education, h. Domestic violence services, i. Employment or vocational training/education, j. Continuing care/recovery support services, k. Other support services |
| ✔ | A5 | ✔ | Employment | Percentage of parents or caregivers participating in substance abuse treatment who are: a. Employed full time, b. Employed part time, c. Currently enrolled in an educational or vocational training program |
| ✔ | A6 | ✔ | Criminal behavior | Percentage of parents or caregivers who show a decrease in criminal behavior |
| ✔ | A7 | ✔ | Mental health status | Percentage of parents or caregivers who show an improvement in mental health functioning |

Family Indicators

| Select | Code | Case Data | Name | Description |
|--------|------|-----------|--------------------------------------|--|
| ✔ | F1 | ✔ | Parenting | Percentage of parents or caregivers who demonstrate increased parental capacity to provide for their children's needs and family's well-being |
| ✔ | F2 | ✔ | Family relationships and functioning | Percentage of parents or caregivers who show improved parent-child and other family interactions |
| ✔ | F3 | ✔ | Risk/protective factors | Percentage of parents or caregivers who show a decrease in risk factors associated with reasons for service and/or an increase in protective factors to prevent child maltreatment |

Regional Indicators

| Select | Code | Case Data | Name | Description |
|---|------|-----------|----------------------------|---|
|  | R2 | | Capacity to serve families | Regions have new or increased capacity to serve families in which a parent or caregiver has an identified substance use disorder and there is current or potential involvement with the child welfare system: a. Percentage of regional partnership member agencies that increased the number of appropriate treatment programs for the targeted region, b. Among those partner agencies, increase in the number or percentage of families served or the number or percentage of treatment slots available in the targeted region |
