

**Justification, Non Substantive Change Request, 1205-0392, November 2011:
Request to publish “Revised Petition Forms to File for Trade Adjustment Assistance”**

ETA seeks OMB approval to publish a Training and Employment Guidance Letter (TEGL) clarifying the information collection responsibilities of State Workforce Agencies under the Trade Act amendments of October 2011. This TEGL does not materially affect the information collection requirements; nor does it alter the currently approved public burden estimate for this collection.
