Before completing the flight authorization application form, please reserve an FAA slot reservation at this website: www.fly.faa.gov. This reservation is tentative until the flight authorization is approved, at which time TSA Office of Security Operations, Airspace Waivers Branch will confirm the slot reservation with FAA. 2. The approved security coordinator, or company equivalent, must complete the flight authorization application form. 3. The application form must be received no later than 24 hours prior to your departure time. Any application received within 24 hours of departure will not be processed. 4. The application must be filled out completely in order for processing to be completed within 24 hours. 5. Passenger, Crew, and Armed Security Officer (ASO) manifest changes are prohibited within 24 hours of the departure time. ? 6. Once the requestor receives the flight authorization approval letter, they must contact the specific gateway fixed based operators (FBO) and Signature Aviation at DCA to notify them of the date and time of their anticipated arrival at the gateway FBO and DCA FBO respectively. 7. All flights from gateway airports into DCA are non-stop. Any intermediate stop will void the operator's flight authorization. The flight authorization process must then begin again and a new request for an FAA slot reservation must be made. This will result in a new flight authorization request and a new 24 hour requirement.
