

Healthcare Personnel Safety Reporting Plan

The *Healthcare Personnel Safety Reporting Plan Form* (CDC 57.203) is used by NHSN facilities to inform CDC which healthcare personnel safety modules are used during a given month. This allows CDC to select the data that should be included into the aggregate data pool for analysis. Each participating facility is to enter a monthly Plan to indicate the module to be used, if any, and the exposures and/or vaccinations that will be monitored.

A plan must be completed for every month that data are entered into NHSN, although a facility may choose “No NHSN Healthcare Personnel Safety Modules Followed this Month” as an option. The *Instructions for Completion of Healthcare Personnel Safety Reporting Plan Form* includes brief instructions for collection and entry of each data element on the form. A minimum of 6 months of data collection for at least one module is required during each calendar year to remain an active participant in NHSN.
