## Attachment D.4: NCHS' Advance Package Confidentiality Brochure

## Other safeguards for your privacy

- Any item that could be used, either directly or indirectly, to identify health care providers or their patients is removed from public-use data files. Names, addresses, dates of birth, dates of service, or location of the health care establishment are never released to the public.
- NCHS withholds statistical totals if they represent a location so small that the numbers might identify someone.
- Information security procedures, including use of coded passwords and physical security of computers, prevent unauthorized access to the data.
- No authority not even law enforcement officials, the Internal Revenue Service, or the Immigration and Naturalization Service — may obtain identifiable information from NCHS without your permission. You survey responses are also profected from the Freedom of Information Act as well as court subpoends.

We believe that our procedures for safeguarding information and our record of protecting the ptivacy of respondents are reasons why so many provides readily participate and provide reliable, high quality information. As a result, ample representative and accurate statistical information on health care utilization is mode available every year to the American public, health care provides, the U.S. Government, and the research community.
