

Attachment A: Email Invitation

The National Cancer Institute's Office of Communications and Education would like to know how satisfied you are with the options available for you to receive patient education materials. As you may know, the National Cancer Institute (NCI) has had to stop offering print versions of many patient education materials due to budget cuts. We want to know how the reduced availability has affected your ability to distribute patient education materials. In order to serve you most productively, we would like to get a sense of your most pressing content needs, and the other ways you're obtaining health information.

To give us your feedback, please click on the link below. The survey will take less than 10 minutes to complete. All of your answers will be kept secure to the extent provided by law and will be grouped together with other comments.

Please complete the survey by XX XX, 2013. Thank you in advance for your time. We welcome your input and look forward to hearing from you.

Best,
Louise Cunningham
