

to submit SBIR research topics and submit response to DHS SBIR solicitations. Additionally, electronic web portals are used to collect unclassified white papers and proposals to reduce the data gathering and records management burden for BAAs.

In addition to issuance of solicitations over the Internet or electronic systems; increased use of oral presentations in lieu of written proposals, permitted under FAR 15.102; and increased use of combined contract action notices/ requests for proposals, as encouraged by FAR 12.603, are contributing to the relative stability of DHS's information collection burden to the public. There is no change in the information being collected.

The Office of Management and Budget is particularly interested in comments which:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
