<p>The National Public Education Financial Survey, commonly called NPEFS, is an annual collection of state-level finance data that has been included in the NCES Common Core of Data (CCD) since FY 1982 (school year 1981-82). NPEFS provides expenditures by function, including salaries, benefits, purchased services, and supplies. NPEFS also includes federal, state, and local revenues by source. The NPEFS collection includes data on all state-run schools, including for jurisdictions such as Puerto Rico and America Samoa. The NPEFS data are used in calculating several federal program allocations. In addition to utilizing the SPPE data as general information on the financing of elementary and secondary education, the Secretary uses these data directly in calculating allocations for certain formula grant programs, including, but not limited to, Title I, Part A of the Elementary and Secondary Education Act of 1965, as amended (ESEA), Impact Aid, and Indian Education programs. Other programs, such as the Educational Technology State Grants program (Title II, Part D of the ESEA), the Education for Homeless Children and Youth Program under Title VII of the McKinney-Vento Homeless Assistance Act, and the Teacher Quality State Grants program (Title II, Part A of the ESEA), make use of SPPE data indirectly because their formulas are based, in whole or in part, on State Title I, Part A allocation.</p>
