**SECTION X - NERVES AFFECTED: Severity Evaluation for Upper Extremity Nerves and Radicular Groups**

Based on symptoms and findings from this exam, complete the following section to provide an estimation of the severity of the Veteran's peripheral neuropathy. This summary provides useful information for VA purposes.

NOTE: For VA purposes, the term "incomplete paralysis" indicates a degree of lost or impaired function substantially less than the description of complete paralysis that is given with each nerve.

If the nerve is completely paralyzed, check the box for "complete paralysis." If the nerve is not completely paralyzed, check the box for "incomplete paralysis" and indicate severity. For VA purposes, when nerve impairment is wholly sensory, the evaluation should be mild, or at most, moderate.

**PRIVACY ACT NOTICE:** VA will not disclose information collected on this form to any source other than what has been authorized under the Privacy Act of 1974 or Title 38, Code of Federal Regulations 1.576 for routine uses (i.e., civil or criminal law enforcement, congressional communications, epidemiological or research studies, the collection of money owed to the United States, litigation in which the United States is a party or has an interest, the administration of VA programs and delivery of VA benefits, verification of identity and status, and personnel administration) as identified in the VA system of records, 58VA21/22/28, Compensation, Pension, Education and Vocational Rehabilitation and Employment Records - VA, published in the Federal Register. Your obligation to respond is required to obtain or retain benefits. VA uses your SSN to identify your claim file. Providing your SSN will help ensure that your records are properly associated with your claim file. Giving us your SSN account information is voluntary. Refusal to provide your SSN by itself will not result in the denial of benefits. VA will not deny an individual benefits for refusing to provide his or her SSN unless the disclosure of the SSN is required by a Federal Statute of law in effect prior to January 1, 1975, and still in effect. The requested information is considered relevant and necessary to determine maximum benefits under the law. The responses you submit are considered confidential (38 U.S.C. 5701). Information submitted is subject to verification through computer matching programs with other agencies.

**RESPONDENT BURDEN:** We need this information to determine entitlement to benefits (38 U.S.C. 501). Title 38, United States Code, allows us to ask for this information. We estimate that you will need an average of 45 minutes to review the instructions, find the information, and complete a form. VA cannot conduct or sponsor a collection of information unless a valid OMB control number is displayed. You are not required to respond to a collection of information if this number is not displayed.
