**Instructions** for completing the  
2011 Commercial Operator's Annual Report

**Instructions for Certification Page - Page 1:**

**MANDATORY for everyone.** Everyone who buys, processes, and/or sells fishery resources **MUST** complete this page. If you had more than one processor code for 2011, you must complete a separate form for each processor code. If you **did not operate** with your processor code in 2011, either inside or outside of the 3-mile zone, the Certification Page is the **only page** you need to return to Fish & Game

**Buying Information - Forms A(1-3), C(1-2), E, G, I(1-2), K:**

The buying information includes the amount paid to fishermen by your operation and refers specifically to species, area purchased, gear types, delivery codes, weights, and pricing that are listed on fish tickets filled out using your company's processor code. Do not include fish you purchased from another licensed processor (where they wrote the fish ticket). After completing the checklist on Page 2, fill out the appropriate sections on each form for each species purchased by your operation.

List the number of pounds purchased in each area, by gear group and delivery code, and the total amount paid to the fishermen. **Do not combine different species, areas, gear types, or delivery codes on the same line. Do not list individual price information when species, area, gear and delivery code are the same;** add together like data pounds purchased and total amounts paid to calculate the *Avg. Price/Lb.* Please include all POST-SEASON adjustments and/or BONUSSES, including credit received by fishermen for gas expenses, ice, delivery premiums, and other miscellaneous expenses. If you think additional adjustments may be made after this report has been filed, please check the "\$ NOT FINAL" box and submit Form M when those adjustments are paid.

**If you are a fisherman** who processes, exports, and/or sells only your own catch (i.e., direct marketer, catcher/exporter, or catcher/processor), do not fill out the Buying forms. Use the **Production** forms only.

**Production Information - Forms B(1-6), D, F, H, J (1-2), K:**

List only the production done by your company where you own the fish. This includes both processed and unprocessed seafood for which your company wrote fish tickets. Do not include fish you kept for your own personal use. Use Form L(2) for all custom production (custom processing and/or packaging) done for you by another company where you retain ownership of the fish. List all production for each fishery that pertains to your operation, based on the checklist on Page 2.

Indicate each species, area of processing, product, total net weight (in pounds) of the finished product, and the total wholesale value of that finished product on each form that applies to your operation. **Do not combine different species, areas, processes, or products on the same line. Do not list individual price information when species, area processed, process, and products are the same;** the *Avg. Price/Lb.* column is meant for the *average* price calculated from the total value and total pounds. Enter a retail value instead of wholesale value if that is how you market your product.

The "Total Value (\$)" is the amount that the processor receives for the finished product (FOB plant or vessel within the state of Alaska). For products finished but not yet sold (still held in inventory), calculate the estimated value using the average price received to date for that product.

The table at the bottom of the form contains choices for the process code. For example, if you have 2,000 pounds of coho salmon that were headed and gutted then frozen in Kodiak, the appropriate codes would be: Area of Processing = K (for Kodiak); Process = 2 (for frozen); Product = 07 (for H&G salmon).

**Custom Production Information - Form L(1-2):**

List all other companies for whom your company did custom production (custom processing and/or packaging) on **Form L(1)**. List all production done for you by another company/operation on **Form L(2)**. Instructions for Form L(2) are similar to those for the Production pages. Process codes are provided on the bottom of Form L(2). Delivery/product, area, and gear codes can be found on Page ii.

**If you have questions, please call ADF&G at: 907-465-6131**
