

Comprehensive Behavioral Intervention for Tics - Online Program

Form Approved, OMB No. 0920-XXXX Exp. Date XX/XX/20XX

This survey is in reference to the online educational video you viewed on the Tourette Syndrome Association website: CBIT: Comprehensive Behavioral Intervention for Tics. This resource was developed through a partnership with the US Centers for Disease Control and Prevention. We would like to assess the impact of the program on your patient care and survey results will enable us to better focus our outreach efforts.

Public reporting burden of this collection of information is estimated to average F minute per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to CDC/ATSDR Information Collection Review Office, 1600 Clifton Road NE, MS D- 74, Atlanta, Georgia 30333; ATTN: PRA (0920-XXXX).

1. Please indicate your profession.

Physician

Nurse Practitioner

Social Worker

Physician Assistant

Ph.D.

Counselor

Nurse

Psychologist

Occupational Therapist

Other (please specify)

2. Do you have experience in managing patients with TS or tic disorders?

No

Yes, 1-5 patient/s

Yes, 6-10 patients

Yes, > 10 patients

3. Please rate your knowledge related to the following areas before and after viewing this program.

	Knowledge Before	Knowledge After
TS symptoms	<input type="text" value="6"/>	<input type="text" value="6"/>
Co-occurring conditions	<input type="text" value="6"/>	<input type="text" value="6"/>
Impact of environmental events on tics	<input type="text" value="6"/>	<input type="text" value="6"/>
Evidence for non-pharmacological interventions	<input type="text" value="6"/>	<input type="text" value="6"/>
CBIT protocol methods	<input type="text" value="6"/>	<input type="text" value="6"/>

Comprehensive Behavioral Intervention for Tics - Online Program

4. Do you think that your skills in managing patients with TS have improved, as a result of the watching the program?

Yes

No

Other (please specify)
