

**HEALTHY COMMUNITIES STUDY
SCHOOL FOOD ENVIRONMENTAL ASSESSMENT PROTOCOL
FOR FOOD SERVICE PERSONNEL**

The following document contains the school food environmental assessment protocol for the the food service personnel. In addition to the school food environmental assessment instruments provided in **SSA Attachment 15**, food service personnel in all 279 communities will be asked to participate in providing information on the school's food environment.

Baseline observational assessments of the nutritional environment will be conducted in up to four randomly selected schools (two elementary and two middle schools) per community. A member of the school's food service staff will complete a brief self-administered questionnaire , and, along with the Battelle community liaison, will observe the school's lunch period and complete an observation form. These community and environmental assessments will be conducted in all 279 communities during the initial visit to the community, and again in the RIPA communities, three years later.

In addition, where the principal of the school has consented to be a key informant, a link to the food service staff questionnaire and lunch observation form will be sent to the principal during the follow-up period and with a request to forward the link to the appropriate food service person for completion.

**HEALTHY COMMUNITIES STUDY
SCHOOL FOOD ENVIRONMENTAL ASSESSMENT**

Public reporting burden of this collection of information of the school food environment is 25 minutes, including the time for verbal consent, searching existing data sources, gathering and maintaining data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to S. Sonia Arteaga, Ph.D., project
