

CHART OF REVISIONS FOR WEST COAST GROUND FISH TRAWL ECONOMIC DATA OMB CONTROL NO. 0648-0618

CV: Catcher vessel
 CP: Catcher/processor
 MS: Mothership
 FR: First receiver/shoreside processor

Form Type	Current Question	Proposed Change	Reason for Change
CV	<p>"If the vessel was leased or bareboat chartered during 2010, provide the contact information for the leaseholder or charterer of the vessel. If necessary, use the last page for additional leaseholders or charterers." (Question 4)</p>	<p>In addition to the current question, we added "Was the vessel leased or bareboat chartered during 2011?" and "If the vessel was leased or bareboat chartered during 2011, provide the contact information for the leaseholder or charterer of the vessel. If necessary, use the last page for additional leaseholders or charterers."</p>	<p>The new format for the question allows us to allocate the recorded landings between the owner and lessees of the vessel and reduces the occurrence of blanks on the form.</p>
CV	Annual Expenses (Question 17)	<p>We added the category, "State licensing and federal permit fees"; we clarified that "Communications" includes VMS, satellite phone, skymate; we clarified that "Depreciation" is "Total depreciation",</p>	<p>We added the extra category and clarified the definitions of the other two categories based on conversation with participants in the baseline collection.</p>
CV	Crew Shares (Question 22)	<p>We removed three categories for repair and maintenance</p>	<p>We removed them because based on the baseline data, it is unlikely that these types of expenses are deducted.</p>
CV	Crew Shares (Question 24 & 25)	<p>We added the categories "state licensing and federal permit fees", and , "buyback fees", we appended "commission costs" to "fishing association", and "electronic monitoring" to "observer fees"</p>	<p>We added the extra categories and clarified the definitions of the other two categories based on conversation with participants in the baseline collection.</p>

CV	On trips when the vessel owner served as captain, please indicate the share of net revenue (revenue minus the deductions listed in question 22) going to the vessel, captain, and crew.	We added the option to include "Other" categories	We added this option because during the baseline collection, participants frequently indicated that they wanted the flexibility to choose different options.
CV	Requirements to complete a partial form (Question 6).	During the baseline data collection, participants who did not harvest any fish were not required to complete the entire form, in the revised form, all participants are required to complete the entire form.	Since participants can still make investments into their vessels and sell and lease quota shares/quota pounds and permits, it is important that they provide their cost and earnings information, regardless of whether the vessel fished.
CP	Requirements to complete a partial form (no longer has an associated question).	During the baseline data collection, participants who did not harvest any fish were not required to complete the entire form, in the revised form, all participants are required to complete the entire form.	Since participants can still make investments into their vessels and sell and lease quota shares/quota pounds and permits, it is important that they provide their cost and earnings information, regardless of whether the vessel fished.
MS	Requirements to complete a partial form (no longer has an associated question)	During the baseline data collection, participants who did not process any fish were not required to complete the entire form, in the revised form, all participants are required to complete the entire form.	Since participants can still make investments into their vessels and sell and lease quota shares/quota pounds and permits, it is important that they provide their cost and earnings information, regardless of whether the vessel fished.
FR	Requirements to complete a partial form (no longer has an associated question)	During the baseline data collection, participants who did not process any fish were not required to complete the entire form, in the revised form, all participants are required to complete the entire form.	We had originally intended to collect information about fish purchasing operations, not just fish processing operations, this revision fixes that error.
FR	Utilities (Question 12)	We added the category "Nitrogen gas".	We added the extra category based on conversation with participants in the baseline collection.

FR	Other Expenses (Question 17)	We added the categories “cleaning and custodial supplies”, “property and excise taxes”.	We added the extra categories based on conversation with participants in the baseline collection.
FR	New Question	The form now asks about the source of seafood purchases, which are broken into the categories of West Coast, Alaska, Canada, and Other (question 18).	We added this question due to participant concerns that we do not adequately account for seafood product sourcing.
FR	Question 19: Fish Purchases	The sources of fish purchases were modified from LE Trawl, Fixed Gear, and Other Sources to LE Trawl Vessels, LE Fixed Gear Vessels, Open Access Vessels, and Non-Vessel Sources	We changed the categories based on conversations with participants and the understanding that the original categories were confusing.
FR	Question 20: Fish Sales	Bait was added to Other Non-Species Specific Products	We changed the categories based on responses the baseline survey.
