Adolescent Survey

About the Survey

The National Institute on Drug Abuse (NIDA), part of the National Institutes of Health, Department of Health and Human Services, is the Federal government's agency that researches drug use and addiction. A big part of our work is sharing important findings with doctors, nurses, and other health care professionals.

Teens who use drugs or alcohol (or who may be pressured to use them) go to their doctor's office every day. We want to help doctors, nurses, and other health care professionals do the best job they can when they see teens in those situations.

We are supporting the development of an education course to do that, but **we need your help!** Teens across the country are taking this survey. Your answers will be combined with theirs to help us create an education program that lets doctors know how best to help teens! Your answers will be kept private, to the extent allowed by law.

Thank you!

Public reporting burden for this collection of information is estimated to average 8 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to: NIH, Project Clearance Branch, 6705 Rockledge Drive, MSC 7974, Bethesda, MD 20892-7974, ATTN: PRA (0925-0655). What is your age?

Are you...?

Male

Female

I know of people my age who have tried drugs, alcohol, or tobacco.

-
- Yes
-
- No
-
- Don't know/ not sure
-

What could they say to you to make you more comfortable talking with them about drugs, alcohol, and tobacco?

How comfortable are you with talking to a:

Nurse		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Nurse Practitioner		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

Pharmacist		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Doctor		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other health care provider		<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Other (please explain)	<input type="text"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

For the next few questions, imagine you're at an appointment with your doctor, nurse, or health care professional.

What would be the best ways for them to share information with you about alcohol, drugs, and/or tobacco? (Pick two options or less)

- Have the doctor talk with me about it during the appointment
- Give me a paper handout, booklet, or flyer
- Give me a website to go to
- Show me a website during the appointment
- Have the nurse talk to me about it before or after I meet with the doctor
- I would not want them to share information with me about drugs, alcohol, or tobacco.

Thank you, you are almost done. The following questions are for statistical purposes only.
