## AHRQ Medical Office Survey on Patient Safety Culture Data Submission Specifications

These specifications are for preparing your respondent-level data from the Medical Office Survey on Patient Safety Culture (MOSOPS). The instructions below tell you how to prepare your Excel data file for submission to the MOSOPS Comparative Database.

### **INSTRUCTIONS (Excel File Only):**

**Step 1:** Include a header row with the variable name for each column.

**Step 2:** Submit individual survey response data using the response values indicated in this document (beginning on page 4).

**Step 3:** Check your data before for the following things:

- **SKIP PATTERN**

There is one skip pattern in this survey. If a respondent answers 1 = Yes, to question EA, “Are you an owner, a managing partner, or in a leadership position with responsibility for making financial decisions for your medical office?” then questions E1 – E4 should be blank.

- **OUT-OF-RANGE VALUES**

You should clean your data before submitting to the database to ensure that there are no out-of-range values and that the data submitted are free from error. Make sure all response values match the response value for the question.

- **REVERSE-CODED ITEMS**

Do not submit reverse-coded data on the survey’s negatively worded items— simply submit each individual’s unmodified responses to the survey items.

For example, survey item C3, “In this office, we often feel rushed when taking care of patients,” is negatively worded. Regardless, the data should be submitted so that 1=Strongly disagree and 5=Strongly agree, as originally indicated in the survey, as follows:

1=Strongly Disagree  
2=Disagree  
3=Neither  
4=Agree  
5=Strongly Agree  
9= Does Not Apply or Don’t Know

## **Medical Office Survey on Patient Safety Culture Data File Layout**

- **STAFF POSITIONS**

If your medical office modified or added a new staff position (H3) category, you MUST RECODE your specific staff positions back to the survey's original staff position category. If you added staff positions that do not match any of the survey's original staff positions, recode your specific staff positions as "OTHER" (H3 = "g") before submitting your data.

- **OTHER, PLEASE SPECIFY TEXT**

Do not include Other-Please Specify data (questions B5, H3, and Section I). While you may find it useful to review this text, it should not be submitted to the Database.

- **SPANISH VERSION OF THE MO SOPS**

Please indicate which respondents (if any) completed a Spanish version of the patient safety culture survey, if you have this information available. You should do so by adding an 'S' to the Individual Unique Record ID, e.g., 001S.
