Dimensions	Rating	
	Yes	No
Construction training is guided for structured curriculum that is recognized by industry standards.		
Construction training is tailored to youths' learning needs and skills.		
The staff-to-youth ratio at the worksite is no more than one trainer to seven students.		
Youth are engaged and working on meaningful activities at the worksite.		
The students are participating fully in the training activities.		
Students appear interested in construction training.		
Students are working on meaningful activities (rather than sitting around waiting for assignments).		
Worksite supervisor(s) present information clearly.		
There are opportunities to work on multiple tasks on site.		
There is a youth leader at the worksite to lead and guide youth.
