ACTION: Review the attached survey, indicate approval or disapproval and return to the sponsoring agency or program. Comments shall not be made on the proposed report but in the comments space below.	
TITLE OF SURVEY OR EVALUATION National Agricultural Workers' Survey	
CLEARANCE <input type="checkbox"/> Approved <input type="checkbox"/> Disapproved (See comments below) <input checked="" type="checkbox"/> Approved with caveats (See comments below)	
COMMENTS 1. Based on the previous OMB passback, our understanding is that the NAWS is subject to additional review by OMB or their designees. 2. The \$20.00 incentive payment referenced in Part A.9 is likely to be subject to further review and evaluation by OMB. 3. Due to the low response rates noted in Part B.1, OMB is likely to require additional nonresponse bias analyses. (Comment space expands to accommodate all necessary comments) Disclaimer: BLS is approving only the statistical methodology as presented in the written documentation, and not necessarily passing judgment on the questionnaire itself nor on the necessity to conduct the collection of information.
