

## Online Survey Questionnaire Impaired Driving Public Service Advertising Campaign

**[INTRODUCTION]** Thank you for taking this survey. Your opinions are important to us! Please be honest when answering the survey. Your answers are anonymous and confidential, and none of your information will be shared with any third parties.

This collection of information is voluntary and will be used for formative purposes only so that we may develop communications programs designed to reduce the number of traffic-related injuries and deaths. Public reporting burden is estimated to average 15 minutes, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. We will not collect any personal information that would allow anyone to identify you. Please note that a federal agency may not conduct or sponsor and a person is not required to respond to, nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act unless that collection of information displays a current valid OMB control number. The OMB generic control number for this collection is 2127-0682.

\* These questions about [race/income] are important so that we make sure the voices of people in all different populations are represented. In this way, we can be fair and objective by adjusting our results based on the proportions of the various groups in the larger population. Collecting data from all respondents on this question is important so that we can better and more reliably report differences and similarities between people of different backgrounds. We understand that you might be concerned about sharing this information. Please be assured that the responses you provide are kept completely confidential. Any identifying information will be separated from your answers. Results are reported using the average, or pooled answers to the questions, instead of the responses of any one individual.
