

Change of Worksheet
OMB No. 0581-0177
Tart Cherries Grown in Michigan, New York, Pennsylvania, Oregon, Utah,
Washington and Wisconsin; Marketing Order No. 930 (7 CFR Part 930)

March 2012

Forms FV-43 (Producer); Form-43A (Cooperative); Form FV-44 (Processor)

This change of worksheet addresses modifications to three forms currently approved under OMB No. 0581-0177. The forms are used by the Cherry Industry Administrative Board to locally administer the Federal marketing order and specifically by tart cherry producers (cooperatives and processors) to vote in an upcoming referendum (March 2012) on the continuance of the marketing order. All changes are merely cosmetic. As a result, the hours per response for these forms would remain 0.33, and will have no effect on the current approved burden for this collection. Below is a justification for the changes to FV-43, FV-43A, and FV-44.

FV-43; FV-43A; FV-44: Page 1: This page is a directive to tart cherry producers (cooperatives and processors) indicating what amendments will be proposed and the rules and instructions for completing the rest of the form. The page is meant to be used as a reference for producers (cooperatives and processors). The address on this page is no longer valid; therefore the new address will be provided. The tart cherry producers (cooperatives and processors) are familiar with the content presented and will not require additional time or burden to review the page. This page informs the producers (cooperatives and processors) what additional material is attached and repeats the voting period and postmark date for the ballot.

FV-43; FV-43A; FV-44: Pages 2-3: The content on these pages will not change and the burden will remain the same.
