

Justification of 83-C Submission

Medicare Prescription Drug Coverage and Your Rights (CMS-10147) – Spanish version

The standardized notice entitled “Medicare Prescription Drug Coverage and Your Rights” was initially approved in 2005 (OMB #0938-0975) and there has been a Spanish version of the notice since that time. This submission is intended to comport with the recently revised version of CMS-10147, approved by OMB January 11, 2012. This translation is a nonmaterial change and does not alter the purpose, meaning, or use of the notice entitled “Medicare Prescription Drug Coverage and Your Rights”.

The instructions have not been translated into Spanish, because the instructions are not provided to the Medicare beneficiary (Part D plan enrollee). The Part D plan enrollee will receive the pharmacy notice if the individual’s prescription cannot be filled by Part D, but the enrollee will not receive the instructions. The instructions are for reference by Part D plans and network pharmacies.
