

Head Start Health Managers Descriptive Study

Appendix G

Illustrative Screen Shots for MMIC™ (Multimode Interviewing Capability)

March 6, 2012

This is an example of what the home page will look like for the Head Start Health Manager Survey. Respondents can access this page via a direct link in their recruitment email or through the RAND MMIC homepage using their unique MMIC-assigned user ID and password. The proposed text for the homepage can be found in Appendix B (Director Survey) and C (Health Manager Survey), and will be finalized upon OMB approval. Once a respondent clicks 'next' they will move to an informed consent screen.

OMB No.: XXXX-XXXX
Expiration Date: MM/DD/YYYY

**Welcome to the Head Start Health Managers Descriptive Study
Head Start Health Manager Survey**

The Office of Head Start, Administration for Children and Families (ACF) within the Department of Health and Human Services (DHHS), is funding a Head Start Health Managers Descriptive Study. This study is being conducted by the RAND Corporation. The purpose of the Head Start Health Manager Descriptive Survey is to provide a current snapshot of health-related activities and programming within Early Head Start (EHS), Head Start (HS), Migrant and Seasonal (MSHS), and American Indian and Alaska Native (AIAN) programs. Your responses to this survey will provide important information about:

- The characteristics and responsibilities of health managers and other stakeholders;
- The current landscape of health programs and services being offered to children and families;
- Procedures for how health initiatives are prioritized, implemented, and sustained;
- Facilitators and barriers to providing health-related services, support, and education to children, families and staff.

The survey will take about 45 minutes to complete, and some questions may require input from the larger health component team. It does not have to be completed all at once, you can save your responses and return to the survey later. At the end of the survey, you may print a hard copy for your records. Thank you for your participation!

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is XXXX-XXXX. The time required to complete this information collection is estimated to average 75 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.
