INTRODUCTION and CONTENT:

- INTRO_1C: Hello, my name is <u>(first and last name)</u> from NORC at the University of Chicago. About two weeks ago, we sent you a package for a survey being conducted on behalf of the Office of Minority Health. The survey is to learn more about your thoughts and opinions about racial and ethnic disparities in health care. The package we sent you contained a cover letter and a survey booklet as well as an honorarium check of \$100. Have you received the package?
- IF NO: Please tell me your correct address and we will mail you a copy of the survey materials. The packet will contain materials for a study we are conducting on behalf of the Office of Minority Health. The survey is to learn more about your thoughts and concerns about racial and ethnic disparities in health care. We are surveying a sample of practicing physicians throughout the United States and your participation in the survey is important to our efforts. You should be receiving the package in the mail within the next week along with a check for \$100 for your participation. We will send the survey to you, but if it is more convenient for you, we can complete the survey over the telephone. It would only take about 15 minutes of your time. We could do it now or schedule another time for a phone interview. Would you like to complete the survey over the telephone?
- IF YES: Good. If you haven't already done so, the completed survey can be returned to NORC using the pre-addressed, pre-paid envelope which was included in the package. Or, if you like, we can complete the survey over the telephone. It would only take about 15 minutes of your time and all of your answers will be kept completely confidential. We could do it now or schedule another time for a phone interview. Would you like to complete the survey over the telephone?

INTRODUCTION and CONTENT FOR TELEPHONE INTERVIEWS:

- INTRO_1D Hello, my name is <u>(first and last name)</u>. I'm calling from NORC at the University of Chicago. We scheduled an appointment with you to discuss the survey you received by mail. There is no benefit to you, but the research will help the federal government's Office of Minority Health better understand peoples' opinions about the differences in minority health care.
- S2_TAPE In order to review my work, my supervisor may record and listen as I ask the questions. I'd like to continue now unless you have any questions.
- S2_MORE Thank you for agreeing to participate. Let me tell you a bit more about the interview. The Office of Minority Health has asked NORC at the University of Chicago, a non-profit organization that specializes in survey research, to interview select individuals about some important health care issues including your thoughts about health care services offered in our Country today. As I mentioned, the interview will only take about 15 minutes. Your participation is voluntary and all of the information you provide will be kept confidential. You don't have to answer any items that you do not want to answer and you can stop the interview or ask questions at any time. Do you have any questions before we begin?
