BILLING CODE 4312–51–P

DEPARTMENT OF THE INTERIOR**Bureau of Reclamation****Agency Information Collection Activities Under OMB Review; Renewal of a Currently Approved Collection**

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of renewal and request for comments.

SUMMARY: The Bureau of Reclamation has forwarded the following Information Collection Request to the Office of Management and Budget (OMB) for review and approval: Lower Colorado River Well Inventory, OMB Control Number: 1006–0014. The Information Collection Request describes the nature of the information collection and its expected cost burden.

DATES: OMB has up to 60 days to approve or disapprove this information collection, but may respond after 30 days; therefore, public comment must be received on or before *June 4, 2012*.

ADDRESSES: Please send your comments to the Desk Officer for the Department of the Interior at the Office of Management and Budget, Office of Information and Regulatory Affairs, via facsimile to (202) 395–5806, or email to *OIRA_DOCKET@omb.eop.gov*. A copy of your comments should also be directed to the Bureau of Reclamation, Attention: LC–4200, P.O. Box 61470, Boulder City, NV 89006–1470.

FOR FURTHER INFORMATION CONTACT: Paul Matuska, Water Accounting and Verification Group Manager, Bureau of Reclamation, Lower Colorado Regional

Office, 702–293–8164. You may also view the Information Collection Request at *www.reginfo.gov*.

SUPPLEMENTARY INFORMATION:**I. Abstract**

Pursuant to the Boulder Canyon Project Act (Pub. L. 70–642, 45 Stat. 1057), all diversions of mainstream Colorado River water must be in accordance with a Colorado River water entitlement. The Consolidated Decree of the United States Supreme Court in *Arizona v. California*, 547 U.S. 150 (2006) requires the Secretary of the Interior to account for all diversions of mainstream Colorado River water along the lower Colorado River, including water drawn from the mainstream by underground pumping. To meet the water entitlement and accounting obligations, an inventory of wells and river pumps is required along the lower Colorado River, and the gathering of specific information concerning these wells.

II. Data

OMB Control Number: 1006–0014.
Title: Lower Colorado River Well Inventory.

Form Number: Form LC–25.

Frequency: These data are collected only once for each well or river-pump owner or operator as long as changes in water use, or other changes that would impact contractual or administrative requirements, are not made. A respondent may request that the data for their well or river pump be updated after the initial inventory.

Respondents: Well and river-pump owners and operators along the lower Colorado River in Arizona, California, and Nevada. Each well and river pump owner or operator must be identified, as well as the location of their diversion and type of water use determined.

Estimated completion time: An average of 20 minutes is required to interview individual well and river-pump owners or operators. Reclamation will use the information collected during these interviews to complete the information collection form.

Estimated total number of annual responses: 1,500.

Estimated total annual burden hours: 500 hours.

III. Request for Comments

Reclamation invites your comments on:

(a) Whether the proposed collection of information is necessary for the proper performance of our functions, including whether the information will have practical use;

(b) the accuracy of our burden estimate for the proposed collection of information;

(c) ways to enhance the quality, usefulness, and clarity of the information to be collected; and

(d) ways to minimize the burden of the information collection on respondents, including the use of automated collection techniques or other forms of information technology.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Reclamation will display a valid OMB control number on the Lower Colorado River Well Inventory, OMB Control Number: 1006-0014.

A **Federal Register** notice with a 60-day comment period soliciting comments on this collection of information was published in the **Federal Register** (77 FR 9264) on February 16, 2012. No public comments were received.

IV. Public Disclosure

Before including your address, telephone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: April 27, 2012.

Michael R. Gabaldon,

Acting Regional Director, Lower Colorado Region, Bureau of Reclamation.

BILLING CODE 4310-MN-P

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Draft Environmental Impact Statement/ Environmental Impact Report and Notice of Public Meeting for the Water Transfer Program for the San Joaquin River Exchange Contractors Water Authority, 2014–2038, San Joaquin Valley, CA

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability and public meeting.

SUMMARY: The Bureau of Reclamation and the San Joaquin River Exchange Contractors Water Authority have made

available for public review and comment the joint draft environmental impact statement/environmental impact report (Draft EIS/EIR) for the Water Transfer Program, 2014–2038.

The proposed new transfer program would provide for the transfer and/or exchange of up to 150,000 acre-feet of substitute water from the San Joaquin River Exchange Contractors Water Authority to several potential users over a 25-year timeframe (water service years 2014–2038).

DATES: Submit written comments on the Draft EIS/EIR on or before July 3, 2012.

One public meeting is scheduled with the Bureau of Reclamation and San Joaquin River Exchange Contractors Water Authority's staff. Oral or written comments will be received at this meeting regarding the project's environmental effects. The meeting will be held on Wednesday, June 13, 2012 from 5:00 p.m. to 7:00 p.m. in Los Banos, California.

ADDRESSES: Submit written comments on the Draft EIS/EIR to Mr. Brad Hubbard, Bureau of Reclamation, 2800 Cottage Way, Room 2905, Sacramento, California 95825. Email electronic comments to bhubbard@usbr.gov.

The public meeting will be held at the Miller & Lux Building, Floor 1, 830 Sixth Street, Los Banos, California 93635.

To request a compact disc of the Draft EIS/EIR, please contact Mr. Brad Hubbard as indicated above, or call 916-978-5034. The Draft EIS/EIR may be viewed at Reclamation's Web site at http://www.usbr.gov/mp/nepa/nepa_projdetails.cfm?Project_ID=9086. See Supplementary Information section for locations where copies of the Draft EIS/EIR are available for public review.

FOR FURTHER INFORMATION CONTACT: Mr. Brad Hubbard, Natural Resources Specialist, at 916-978-5204, or email at bhubbard@usbr.gov; or Ms. Joann White, San Joaquin River Exchange Contractors Water Authority, at 209-827-8616, or email at jwhite@sjrecwa.net.

SUPPLEMENTARY INFORMATION: The San Joaquin River Exchange Contractors Water Authority (Exchange Contractors) propose to make water available via tailwater recovery, water conservation, and temporary land fallowing for transfer and/or exchange of substitute water to either the state and Federal wildlife refuges, Central Valley Project (CVP) contractors for existing municipal and industrial (M&I) and/or agricultural areas, and other potential State Water Project (SWP) contractors for agricultural and/or municipal and industrial (M&I) uses, or to some

combination of these users. The action would be to execute agreements for water transfers among the Bureau of Reclamation (Reclamation), Mid-Pacific Region; Central Valley Project (CVP) and State Water Project (SWP) contractors; and the Exchange Contractors for water service years 2014 to 2038.

The program would consist of the annual development and transfer of up to 150,000 acre-feet of substitute CVP water (maximum of 80,000 acre-feet of tailwater and a maximum of 20,000 acre-feet of conserved water, and a maximum of 50,000 acre-feet from land fallowing) from the Exchange Contractors to other CVP contractors, to Reclamation's Refuge Water Supply Program (RWSP) for delivery to the San Joaquin Valley wetland habitat areas (wildlife refuges), and/or SWP contractors. The purposes of the proposed twenty-five year transfer program are the transfer and/or exchange of CVP water from the Exchange Contractors to:

- The RWSP to meet water supply needs (Incremental Level 4) for San Joaquin River Basin wildlife refuges and Tulare Lake Basin wildlife areas.
- Other CVP contractors and SWP contractors to meet demands of agriculture, municipal, and industrial uses, and/or

The continuation of a program of temporary annual water transfers and/or exchanges is needed to maximize the use of limited water resources for agriculture, fish and wildlife resources, and M&I purposes with the following objectives:

- Develop supplemental water supplies from willing seller agencies within the Exchange Contractors' service area through water conservation measures/tailwater recovery and crop idling/fallowing activities consistent with agency policies.
- Assist in providing water supplies to meet the Incremental Level 4 requirements for the San Joaquin River Basin and Tulare Lake Basin wildlife refuges.
- Assist Friant Division CVP repayment contractors or water service contractors to obtain additional CVP water for the production of agricultural crops or livestock and/or M&I uses because of water supply shortages or when full contract deliveries cannot otherwise be made.
- Assist SWP (Kern County Water Agency and Santa Clara Valley Water District (SCVWD)) and other CVP agricultural service and M&I contractors (San Luis Unit, SCVWD, East Bay Municipal Utility District, Contra Costa Water District, and Pajaro Valley Water
