How was my household chosen for this study?

Households were selected at random from all Chicago-area residential addresses. By selecting households randomly, we will be able to create scientific estimates about households in the Chicago area. It's important to participate, so that we have an accurate picture of the Chicagoland community.

How do I know you'll keep my information confidential?

The information you provide will be used for statistical purposes only and may not be disclosed, or used, in identifiable form for any other purpose as required by law (Title 42, U.S. Code, Sections 3789g).
