B. Purpose

The REA initiative provides funds to conduct in-person assessments in the One-Stop facilities which include: a UI continued eligibility review, the provision of labor market information, development of an individualized work-search plan, and referral to reemployment services and/or training, as appropriate. Assessments are to be provided to selected claimants who do not have a definite return-to-work date. States develop a specific method of selecting REA claimants and of providing a comparison group of claimants who do not receive an REA.

The ETA 9129 report provides quarterly information on the outcomes of Reemployment and Eligibility Assessment (REA) activities for claimants who are selected for REA activities and on a comparison group that has been identified by the State Workforce Agency. REAs provide in-person service in the One Stop Career Center for applicants including the development of an individualized work search plan, appropriate labor market information (LMI) and referral to reemployment services as appropriate. The data on this report allows for evaluation and monitoring of the REA initiative.

C. Due Date and Transmittal

The electronically submitted report is due in the ETA National Office on the 20th of the fourteenth month following the quarter in which the claimants started their benefit years.

Examples of time frames are given below:

Benefit Year Beginning Quarter	Due Date
Jan – Mar 2006	May 20, 2007
Apr – Jun 2006	Aug 20, 2007
Jul – Sep 2006	Nov 20, 2007
Oct – Dec 2006	Feb 20, 2008

D. General Reporting Instructions

Data on this report deals with individuals in the regular Unemployment Insurance program (this includes State, UCFE, and UCX) who are selected for an REA and similar data is collected for individuals in a control group for purposes of comparison.

E. Item by Item Instructions

The ETA 9129 Report provides data about two distinct groups. The first is a state-defined comparison group of claimants who were not selected for an REA and the second is the group of claimants who were scheduled for an REA. This information will be used to compare the outcomes between those who were scheduled for an REA and those who were not scheduled for an REA.

1. Claimants in a state-defined comparison group. The number of claimants in the universe of claimants who were in the target group from which REA participants could have been selected for an REA but were not selected. The claimants in this group should have characteristics as similar as possible to the selected REA participation group.
 - a. Number of claimants who filed a claim and established a UI benefit year in the report quarter. Enter the number of claimants in the state-defined comparison group who filed a claim and established a benefit year during the report quarter.
