- 8 material) \*\*
- 9 Site Safeguards and Security Plans or Site Security Plans (for unclassified information)
- 14 Vulnerability Assessments

In response to the 2010 OMB Data Call to reduce burden hours initiative, it was reported that the Security package would be revised to reflect the elimination of these planning functions with the next renewal of 1910-1800 which has an expiration date of June 2012.

18 472.1)

Under 5 CFR 1320.3(h)(1), this form is not a Collection of Information and does not fall under the PRA since it is used for identification verification.

13 Foreign Access Central Tracking System (FACTS)

Estimates of annual respondents and annual burden hours decreased for FACTS. This was due to both decreases in numbers of foreign nationals visiting and assigned to DOE sites, and to significant reduction of data required for entry into FACTS.
