**USDA/Food and Nutrition Service
School Foodservice Indirect Cost Study
School Foodservice Director Web Survey**

INTRODUCTION

Section 307 of the Healthy Hunger-Free Kids Act of 2010 (P.L. 111-296) requires the US Department of Agriculture to conduct a study to assess the extent to which school food authorities participating in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) pay indirect costs. To address the congressional mandate, Abt Associates and Kokopelli Associates are conducting a study for the USDA Food and Nutrition Service about the reporting and recovery of indirect costs attributable to school foodservice.

As part of the study, surveys are being conducted with all State Child Nutrition Directors, with all State Education Agency (SEA) Finance Officers, and with a randomly selected sample of School Foodservice Directors and Business Managers of public Local Education Agencies (LEAs) and private schools.

The purpose of this web survey is to gather information from **School Foodservice Directors** of public LEAs and of private schools on how indirect costs are applied in the financial reporting for school foodservice. In this survey, you will be asked to provide information on how your LEA* charges indirect costs to its' foodservice program. This survey and this study are not intended to audit financial transactions through the indirect cost recovery process. Please also note that:

- Data will only be presented in the aggregate, and no specific data will be attributed to specific survey respondents.
- Information provided through the survey will be kept private, to the extent provided by law.
- Responses to this study will not affect your agency's receipt of funds from USDA school meals programs.
- PL 111-296, Healthy Hunger-Free Kids Act of 2010, Section 305 requires cooperation with program research and evaluation by States, State educational agencies, local educational agencies, schools, institutions, facilities, and contractors participating in programs authorized under this Act and the Child Nutrition Act of 1966.

USDA/FNS needs your participation to assure that this study fairly and accurately represents the processes of establishing indirect cost rates and paying indirect costs. We thank you in advance for your time and cooperation in this important study. If you have any questions about the study, please feel free to contact Abt Associates toll-free at 1-800-###-####, or send an e-mail to **SF_Indirect_Cost_Study@abtassoc.com**.

Programming Note: For public LEAs the web survey will display Note 1 and replace "LEA" (with an asterisk) with "LEA". For respondents representing private schools, the web survey will replace "LEA*" with "private school" and display Note 2 instead of Note 1.*

Note 1: In this survey, "LEA" includes both public school districts and independent public charter schools.

Note 2: In this survey, "private school" refers to individual private schools and groups of private schools operating under a single organization, such as an Archdiocese for Catholic schools.

Section 307 of the Healthy Hunger-Free Kids Act of 2010 (P.L. 111-296) requires the US Department of Agriculture to conduct a study to assess the extent to which school food authorities participating in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) pay indirect costs. To address the congressional mandate, Abt Associates and Kokopelli Associates are conducting a study for the USDA Food and Nutrition Service about the reporting and recovery of indirect costs attributable to school foodservice.

As part of the study, surveys are being conducted with all State Child Nutrition Directors, with all State Education Agency (SEA) Finance Officers, and with randomly selected samples of School Foodservice Directors and Business Managers of public Local Education Agencies (LEAs) and private schools.

The purpose of this web survey is to gather information from **Business Managers or Chief Financial Officers of public LEAs and private schools** on how they allocate indirect costs in their financial reporting. In this survey, you will be asked to provide information on how your LEA* calculates its indirect costs and allocates them to its programs and activities, including foodservice. This survey and this study are not intended to audit financial transactions through the indirect cost recovery process. Please also note that:

Data will only be presented in the aggregate, and no specific data will be attributed to specific survey respondents.

Information provided through the survey will be kept private, to the extent provided by law. Responses to this study will not affect your agency's receipt of funds from USDA school meals programs.

PL 111-296, Healthy Hunger-Free Kids Act of 2010, Section 305 requires cooperation with program research and evaluation by States, State educational agencies, local educational agencies, schools, institutions, facilities, and contractors participating in programs authorized under this Act and the Child Nutrition Act of 1966.

USDA/FNS needs your participation to assure that this study fairly and accurately represents the processes of establishing indirect cost rates and paying indirect costs. We thank you in advance for your time and cooperation in this important study. If you have any questions about the study, please feel free to contact Abt Associates toll-free at 1-800-###-####, or send an e-mail to **SF_Indirect_Cost_Study@abtassoc.com**.

METHOD FOR ALLOCATING INDIRECT COSTS

The first part of this survey deals with the method that your LEA* uses for allocating indirect costs. Below are some definitions of some key terms that are used throughout the survey.

DEFINITIONS USED IN THIS SURVEY

Programs are activities or services, such as instruction and school foodservice, that have identifiable direct costs. These direct costs may be charged to grants or other special-purpose accounts, or to the LEA or private school's general fund.

Indirect costs are costs incurred for the benefit of multiple programs, functions, or other cost objectives and therefore cannot be identified readily and specifically with a particular program or other cost objective. They typically support administrative overhead functions such as fringe benefits, accounting, payroll, purchasing, facilities management, utilities, etc. (*from Indirect Costs: Guidance for State Agencies & School Food Authorities*)

Indirect cost rate is calculated as:

Indirect Cost Rate = Total Indirect Costs ÷ Total Direct Costs

Note: Certain costs may be excluded from indirect or direct costs according to applicable Federal and State rules for computing and claiming indirect costs.

Restricted indirect rates (restricted rates) are used for grants, such as Title I, with a requirement that Federal funds supplement, not supplant non-Federal funds.

Unrestricted indirect rates (unrestricted rates) may be used when this requirement does not apply.

Indirect cost allocation plans define how indirect costs will be allocated and the method or methods to be used to allocate indirect costs.

The next questions ask about the methods used by your LEA* to calculate indirect costs attributable to foodservice and other programs or grants. The questions also ask about procedures used to obtain approval for these methods from the State Education Agency.

2. Did your LEA* have one or more indirect cost percentage rate(s) for SY2011-2012?

2c. Did your LEA* obtain approval from the State Education Agency for indirect cost percentage rate(s)?

COMPONENTS OF INDIRECT COSTS

This section asks about the components of indirect costs that will be used by your LEA.

DEFINITION OF EXPENDABLE EQUIPMENT USED IN THIS SURVEY

“Expendable” equipment means equipment purchases treated as an annual operating expense; not a capital expense, under Federal and State rules.

Programming Notes:

If (Question 2a=“Yes” or Question 2b=“Yes”) and Question 3=“No” then Go to Question 8 (i.e., skip Questions 4-7).

For other respondents, Questions 4-7 will be worded to only include indirect cost rates and/or allocation plans identified by the respondent in Questions 2e and 3. A series of separate tables, to be completed one after the other, will be created for the respondent based on the previous answers. The questions and responses to determine the wording for Questions 4-7 and tables are as follows:

If Question 2e responses include “Restricted rate for all grants and programs” or “Restricted rate for some grants and programs” then the respondent will see a table of “Cost Categories” and responses for “Restricted Rate.”

If Question 2e responses include “Unrestricted rate for all grants and programs” or “Unrestricted rate for some grants and programs” then the respondent will see a table of “Cost Categories” and responses for “Unrestricted Rate.”

*If Question 2e responses include “Unrestricted” **and** “Restricted” rates then the respondent will see a single table of “Cost Categories” with columns for both types of rates.*

If Question 2e response included “Don’t Know” then the respondent will see a table of “Cost Categories” and responses for “Unknown Type of Rate”.

If Question 3d response was “Yes” then the respondent will see a table of “Cost Categories” and responses for “Other Allocation Plan”.

4. You have indicated that your LEA* used or will use

a Restricted Rate
 an Unrestricted Rate

to allocate indirect costs for SY2011-2012.

Which of the following **cost categories** were included as indirect costs in each type of indirect cost rate or allocation plan that is or will be used by your LEA* for SY2011-2012? (Check one response for each row.)

7. Programs are generally included in the cost base for an indirect cost rate when they are considered to benefit from the expenditure of indirect costs. For example, salaries of teachers are a direct cost of regular day instruction programs that may be included in the base of total direct costs for computing an indirect cost rate. An indirect cost of these programs might be payroll administration.

CALCULATION AND RECOVERY OF INDIRECT COST FOR SCHOOL FOODSERVICE

This section requests information on the calculation and recovery of the indirect cost of school foodservice, according to the method (if any) used by your LEA* to allocate indirect costs.

10. Has your LEA* **calculated**, or does it plan to calculate, indirect costs for the school foodservice account for SY2011-2012? A LEA* may **calculate** indirect costs even if it does not plan to **recover** them.

- Yes (Go to Question 10b.)
- No
- Have not decided yet (Go to Question 10b.)

10a. What are the reasons your LEA* did not, or will not, **calculate** indirect costs for the school foodservice account for SY2011-2012? (Check all that apply.)

- LEA* does not recover indirect costs from any grant or program
- LEA* never charges the school foodservice account for indirect costs
- LEA* did not know it was possible to recover indirect costs from school foodservice
- The school foodservice account had (or will have) insufficient funds
- LEA* chose to bear the costs
- LEA* uses a food service management company (FSMC) and contract does not provide for recovery of indirect costs
- LEA* was directed by State or another agency to not to calculate indirect cost for school foodservice (Provide name of agency)

- Other (Describe.)

- Don't know

Programming Notes: For public LEAs and private schools that have not or do not plan to calculate indirect costs for school foodservice, the next question following Question 10a is based on the response:

If "LEA does not recover indirect costs from any grant" then go to Question 14.*

Otherwise, if "LEA never charges the school foodservice account for indirect costs" or "LEA* did not know it was possible to recover indirect costs from school foodservice" go to Question 12.*

Otherwise go to Question 11h.

(Questions 11-11g are asked if the public LEA or private school has or plans to calculate indirect costs for school foodservice.)

10b. If your LEA* is calculating, or decides to calculate, indirect costs for the foodservice account, which indirect cost rate is, or will be, used to **calculate** the SY2011-2012 indirect costs for foodservice? (Check all that apply)

RECOVERY OF INDIRECT COSTS FOR OTHER GRANTS AND PROGRAMS

FNS is interested in learning how your LEA* treats indirect costs attributable to grants or programs other than school foodservice.

DEFINITION

The **full indirect cost** of a grant or program is the amount of indirect cost determined by applying the appropriate method for determining the grant or program's share of the LEA's indirect costs. For an LEA that uses indirect cost rates, the full indirect cost is equal to applicable indirect cost rate times the base of direct costs for the grant or program.

12. Thinking about the grants and programs in SY2011-2012 **other than school foodservice** that allowed the recovery of indirect costs, subject to available funds, has your LEA* **calculated**, or does it plan to calculate, the indirect costs attributable to of all, some, or none of these grants and programs?

- Restricted
 - Unrestricted
 - Not applicable – LEA* will use other method to calculate indirect cost

**USDA Food and Nutrition Service
School Foodservice Indirect Cost Study
Public Local Education Agency and Private School Business Manager Follow Up
Web Survey**

INTRODUCTION

Section 307 of the Healthy Hunger-Free Kids Act of 2010 (P.L. 111-296) requires the US Department of Agriculture to conduct a study to assess the extent to which school food authorities participating in the National School Lunch Program (NSLP) and School Breakfast Program (SBP) pay indirect costs. To address the congressional mandate, Abt Associates and Kokopelli Associates are conducting a study for the USDA Food and Nutrition Service about the reporting and recovery of indirect costs attributable to school foodservice.

As part of the study, surveys are being conducted with all State Child Nutrition Directors, with all State Education Agency (SEA) Finance Officers, and with randomly selected samples of School Foodservice Directors and Business Managers of public Local Education Agencies (LEAs) and private schools.

Earlier this year, you completed a web survey that gathered information from **Business Managers or Chief Financial Officers of public LEAs and private schools** on how they allocate indirect costs in their financial reporting. ***In this web survey, you will be asked to provide final SY2011-2012 information on the allocation of indirect costs for foodservice.*** This survey and this study are not intended to audit financial transactions through the indirect cost recovery process. Please also note that:

Data will only be presented in the aggregate, and no specific data will be attributed to specific survey respondents.

Information provided through the survey will be kept private, to the extent provided by law.

Responses to this study will not affect your agency's receipt of funds from USDA school meals programs.

PL 111-296, Healthy Hunger-Free Kids Act of 2010, Section 305 requires cooperation with program research and evaluation by States, State educational agencies, local educational agencies, schools, institutions, facilities, and contractors participating in programs authorized under this Act and the Child Nutrition Act of 1966.

USDA/FNS needs your participation to assure that this study fairly and accurately represents the processes of establishing indirect cost rates and paying indirect costs. We thank you in advance for your time and cooperation in this important study. If you have any questions about the study, please feel free to contact Abt Associates toll-free at 1-800-###-####, or send an e-mail to **SF_Indirect_Cost_Study@abtassoc.com**.

DEFINITIONS USED IN THIS SURVEY

Indirect costs are costs incurred for the benefit of multiple programs, functions, or other cost objectives and therefore cannot be identified readily and specifically with a particular program or other cost objective. They typically support administrative overhead functions such as fringe benefits, accounting, payroll, purchasing, facilities management, utilities, etc. *(from Indirect Costs: Guidance for State Agencies & School Food Authorities)*

Indirect cost rate is calculated as:

Indirect Cost Rate = Total Indirect Costs ÷ Total Direct Costs

(Note: Certain costs may be excluded from indirect or direct costs according to applicable Federal and State rules for computing and claiming indirect costs.)

Recovery of indirect costs means that funds are transferred, from the school foodservice account and other programs and grants, to the LEA or private school general fund, in payment of indirect costs.
