RACE1 and RACE2 (The help is the same for both screens)**Race**

The Census Bureau collects race data in accordance with guidelines provided by the U.S. Office of Management and Budget and these data are based on self-identification. The racial categories included in the census questionnaire generally reflect a social definition of race recognized in this country, and not an attempt to define race biologically, anthropologically or genetically.

Origin can be considered as the heritage, nationality group, lineage, or country of birth of the person or the person's parents or ancestors before their arrival in the United States.

Category	Definition

A person can report one or more enrolled or principal tribes.

Answer “no” if this person lived or stayed only at the address we have been asking about, and they did not live or stay at another address around September 5, 2012.

Answer “yes” if this person sometimes lived or stayed at another address around September 5, 2012. Choose the option that best describes the person’s alternate residence. Or, choose “Yes, for another reason” (at the end of the list) if none of the options apply. For example, choose “Yes, in college housing” if this person was living away in college housing around September 5, 2012. You may choose all the options that apply.

DELETE1 – Do you/Does anyone sometimes live or stay at another home like a seasonal residence?

Answer "yes" if anyone sometimes lives or stays at a different address because they have a second home where they sometimes live. For example, some people leave their northern homes and spend the winter living at a different address farther south.

DELETE2 – Do you/Does anyone sometimes live or stay elsewhere with a parent or other person?

Answer "yes" if anyone sometimes lives or stays at a different address because they are in a child custody situation. This situation could occur for children under the age of 18 who stay at multiple addresses to be with another parent, grandparent, or another guardian.

DELETE3 – Were you/Was anyone staying away from <address> while living in college housing?

Answer "yes" if anyone sometimes lives or stays at a different address because they are attending college. This includes dorm rooms, sorority and fraternity houses, off campus apartments, etc.

DELETE4 – Were you/Was anyone staying away from <address> to be closer to a job?

Answer "yes" if anyone sometimes lives or stays at a different address because they have a second home where they sometimes live. Others examples include someone who stays in another place during the week to be closer to a job but comes home on the weekends.

MOST – Where does <name> live and sleep most of the time?

Choose the option that best describes where this person was living and sleeping MOST OF THE TIME as of September 5, 2012.

Here are some examples of what we mean by MOST OF THE TIME:

- If, around the time of September 5, 2012, a person lived and slept at one residence for part of each week and at another residence for the other part of each week, then that person was on a “weekly cycle,” and you should select the residence where that person stayed most of the time during each week (e.g., commuter workers).
- The same concept applies to someone who was on a “monthly cycle” (e.g., children in shared custody) or a “yearly cycle” (e.g., people with a seasonal residence). You should select the residence where that person lived and slept most of the time during each cycle (e.g., most of each month, or most of each year).

If the person stayed equal amounts of time at each place during each cycle, then you should select “Equal time at all places.”

WHERE – Where was <name> staying on <date>?

Choose the option that best describes where this person was staying on September 5, 2012.
