Re: OMB Approval for a Non-substantive Change to a Previously Approved Information Collection
Information Collection: Computerized Support Enforcement Systems (Includes FCR)

OMB Control Number: 0980-0271; Expires June 30, 2014

A request is being submitted for a non-substantive change to be made to Appendix G, “FCR Input Records” of the Computerized Support Enforcement Systems since they were last approved by OMB in June 2011. The field that was once titled “Participant Type” was changed to “Participant Type Code” in several records for consistency in naming standards. The respective field’s comment was clarified for ‘AD’ Locates, due to additional information now being returned for some Adoption Locates.
