In accordance with Section 223 of the Trade Act of 1974, as amended ("Act"), (19 U.S.C. 2273), the Department of Labor issued a Revised Determination on Reconsideration on December 15, 2011, applicable to workers of MGM Transport, 2550 Hickory Road, a subsidiary of CF Holding Co., Inc., Lenoir, North Carolina (TA-W-80,420), MGM Transport, 900 VC Drive, a subsidiary of CF Holding Co., Inc., Martinsville, Virginia (TA-W-80,420A), MGM Transport, 1264 Jackson Lake Road, a subsidiary of CF Holding Co., Inc., High Point, North Carolina (TA-W-80,420B), Caldwell Freight Lines, Inc., 1264 Jackson Lake Road, a subsidiary of CF Holding Co., Inc., High Point, North Carolina (TA-W-80,420C), Caldwell Freight Lines, Inc., 900 VC Drive, a subsidiary of CF Holding Co., Inc., Martinsville, Virginia (TA-W-80,420D), Caldwell Freight Lines, Inc., 385 Stafford Blvd., a subsidiary of CF Holding Co., Inc., Pontotoc, Mississippi (TA-W-80,420E), Caldwell Freight Lines, Inc., 2550 Hickory Blvd., a subsidiary of CF Holding Co., Inc., Lenoir, North Carolina (TA-W-80,420F), and Caldwell Freight Lines, Inc., 1459 Robinwood Road, a subsidiary of CF Holding Co., Inc., Newton, North Carolina (TA-W-80,420G). The worker group, except for TA-W-80,420, TA-W-80,420B and TA-W-80,420E, also consists of on-site leased workers from Prime Choice Services. The workers' firm is engaged

in activities related to the supply of transportation services. The revised notice was published in the **Federal Register** on December 29, 2011 (76 FR 81991).

New information provided by the company revealed that workers of the Secaucus, New Jersey location of MGM Transport, a subsidiary of CF Holding Co., Inc. supplied transportation services to a certified Trade Adjustment Assistance firm. The intent of the Department's revised determination is to include all workers of the subject firm who were adversely affected as secondary certified workers.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The information collection requirements specified in the Cadmium in Construction Standard protect workers from the adverse health effects that may result from their exposure to cadmium. The major information collection requirements of the Standard include: conducting worker exposure monitoring, notifying workers of their cadmium exposures, implementing a written compliance program, implementing medical surveillance of workers, providing examining physicians with specific information, ensuring that workers receive a copy of their medical surveillance results, maintaining workers' exposure monitoring and medical surveillance records for specific periods, and providing access to these records by OSHA, the National Institute for Occupational Safety and Health, the worker who is the subject of the records, the worker's representative, and other designated parties.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Cadmium in Construction Standard (29 CFR 1926.1127). The Agency is proposing to retain its previous estimate of 37,231 burden hours; however, it is proposing to increase the currently approved operation and maintenance costs from \$1,775,457 to \$1,930,703, a total increase of \$155,246. The increase is due to the Agency increasing the cost to perform medical surveillance and exposure monitoring.

Type of Review: Extension of a currently approved collection.

Title: Cadmium in Construction Standard (29 CFR 1926.1127).

OMB Number: 1218-0186.

Affected Public: Business or other for-profits; Federal Government; State, Local or Tribal Government.

Number of Respondents: 10,000.

Frequency of Response: On occasion; Quarterly; Semi-annually; Annually.

Total Responses: 261,889.

Average Time per Response: Varies from two minutes (.03 hour) for a secretary to compile and maintain training records to 1.5 hours to administer worker medical examinations.

Estimated Total Burden Hours: 37,231.

Estimated Cost (Operation and Maintenance): \$1,930,703.
