How do we obtain access to TCLI on the web?
In order to obtain access to TCLI on the Web you will need to first register. To register click the login button above then press the Register button. Once you fill out the registration form, the security officer will contact you and provide you a with User ID and a temporary password to access TCLI on the web. What is different about TCLI on the web?
TCLI on the Web allows State-Side users to have unlimited control over their particular state's TCLI directory listing. In turn this allows you to make updates at anytime. Since TCLI is a Web application, there should not be any installation issues. Consequently, ED will no longer accept the various file formats that were used in the past. One upgrade we have made is we have increased the size of the Grade field to allow multiple grade ranges. This field used to be 5 characters and will now be 25 characters.

What factors do states use to determine if a school is eligible to be a “low income school?”

To be included in the TCLI Directory, a school must meet the following criteria:

- The school must be a public or other nonprofit elementary or secondary school.
- The School must be in a school district of a Local Educational Agency (LEA) that is eligible each year for assistance under Title I of the Elementary and Secondary Education Act of 1965 (ESEA).
- The number of children enrolled in the school who meet a measure of poverty under Section 1113(a)(f) of the ESEA must exceed 30 percent of the total enrollment of that school.

What information do the states provide for each eligible school?

States provide the following information for eligible schools:

- School Name: The full name of the school
- Location: Identified by the State, County or County/District commonly used
- Grades: The grade(s) taught at the school
- Percent: The number of children enrolled in the school who are counted under Section 1124 of the ESEA must exceed 30 percent of the total enrollment of that school

What is an educational service agency?

An educational service agency is a regional public multiservice agency authorized by State statute to develop, manage, and provide services or programs to local educational agencies, as defined in section 9101 of the Elementary and Secondary Education Act of 1965, as amended.

How often is the TCLI Directory Updated?

State and Territory agencies are asked to update the TCLI Directory at least annually. However, updates may be made at any time continuously throughout the year for the reporting year as well as past years.

(If you are a student who needs to search a directory prior to 1997-98, contact the following: for a Perkins loan the school that made you the loan; For Direct Stafford Loan, the Direct Loan Servicer; or for a FFEL Stafford Loan, your Stafford Loan holder or servicer in the Federal Family Education Loan Program.)

To look up a low-income school:

Select a state and the school name. If you are unsure of the school name, just select the state to see the list of all low-income schools in that state.

Note that you can provide partial information for a search box. For example, if you select a State and enter "Red" in the School Name search box, and then click the Search button, the results page will list schools that begin with the word Red in their name such as Redwood, Redmond, etc. Using an example similar to the one above, to find all schools that contain the text "red" anywhere in their name, enter "%red" into the name field. Can't find the school or educational service agency you're looking for?

The "School or Educational Service Agency Name" data might be abbreviated preventing you from receiving the desired search results. Example: Redbud Elementary might be listed as Redbud El., Redbud Elm. etc. Unless you were searching for the exact way the school was entered you will not receive the desired search result. To receive the intended search results you should use one of the search methods mentioned on the previous page. Example: "red" or "Redbud" would both return the desired search results.

Still can't find the school or educational service agency you're looking for?

Sometimes less is more. If you have entries in School or Educational Service Agency Name and Location for a particular search and cannot find a school or educational service agency, the information entered may be too specific. Try entering only the School or Educational Service Agency Name field to widen your search result population. If searching for W. T. Bealson High School try using "Bealson" to avoid spacing problems with "W. T." and to ensure the highest probability of obtaining the desired search results.
