Notice of Commencement

Notice of Commencement | CBI Substantiation | Optional Cover Letter

Report Number ?

Part I – SUBMITTER IDENTIFICATION

Manufacturer/
Importer
(in U.S.)
[Profile]

Name of Authorized Official					<input type="checkbox"/> CBI
First Name	Last Name	Mailing Address (number and street)			
<input type="text"/>	<input type="text"/>	<input type="text"/>			
Company Name		City	State	Zip	
<input type="text"/>		<input type="text"/>	<input type="text"/>	<input type="text"/>	

Technical
Contact
(in U.S.)

First Name	Last Name	Telephone Number	<input type="checkbox"/> CBI
<input type="text"/>	<input type="text"/>	<input type="text"/>	

Part II – Premanufacture Notice (PMN) 'P' Case Number ?

Part III – Check the appropriate box and provide the exact date of manufacture or importation

First Commercial Manufacture** First Commercial Importation***

Date Date

**Date of commencement is the date of completion of non-exempt manufacture of the first amount (bath, drum, etc.)
***For importees, the date of commencement is the date that the new chemical substance clears U.S. customs.)

Part IV – Manufacturing Plant Site(s) or Importing Site(s)

CBI

Part V – Specific Chemical Identity

CBI

Part VI – Generic Chemical Name

Part VII – Substance Identity Confidentiality Status

I wish to continue to claim the substance identity confidential and the substantiation to support this claim is attached. Failure to submit the required substantiation in accordance with 40 CFR 720.85(b) will result in a waiver of your claim.

I previously claimed the substance identity as confidential and hereby relinquish that claim.

I did not claim the substance identity as confidential in my original PMN submission.

NOC Form – CBI Substantiation form

Notice of Commencement		
Notice of Commencement	CBI Substantiation	Optional Cover Letter
<p>Substantiate confidentiality claims if you mark the substance identity (Part V) as CBI by answering the following questions:</p> <p>(A) What harmful effects to your competitive position, if any, do you think would result if EPA publishes on the Inventory the identity of the chemical substance? How could a competitor use such information given the fact that the identity of the substance otherwise would appear on the Inventory of chemical substances with no link between the substance and your company or industry? How substantial would the harmful effects of disclosure be? What is the causal relationship between the disclosure and the harmful effects?</p> <p>(B) For what period of time should confidential treatment be given? Until a specific date, the occurrence of a specific event, or permanently? Why?</p> <p>(C) Has the chemical substance been patented? If so, have you granted licenses to others with respect to the patent as it applies to the chemical substance? If the chemical substance has been patented and therefore disclosed through the patent, why should it be treated as confidential for purposes of the Inventory?</p> <p>(D) Has the identity of the chemical substance been kept confidential to the extent that your competitors do not know it is being manufactured or imported for a commercial purpose by anyone?</p> <p>(E) Is the fact that someone is manufacturing or importing this chemical substance for commercial purposes available to the public, e.g., in technical journals or other publications; in libraries; or in State, local, or Federal agency public files?</p> <p>(F) What measures have you taken to prevent undesired disclosure of the fact that you are manufacturing or importing this substance for a commercial purpose?</p> <p>(G) To what extent has the fact that you are manufacturing or importing this chemical substance for a commercial purpose been disclosed to others? What precautions have you taken in regard to these disclosures? Has this information been disclosed to the public or to competitors?</p> <p>(H) In what form does this particular chemical substance leave the site of manufacture, e.g., as part of a product; in an effluent or emission stream? If so, what measures have you taken to guard against discovery of its identity?</p> <p>(I) If the chemical substance leaves the site of manufacture in a product that is available to either the public or your competitors, can they identify the substance by analyzing the product?</p> <p>(J) For what purpose do you manufacture or import the substance?</p> <p>(K) Has EPA, another Federal agency, or any Federal court made any pertinent confidentiality determinations regarding this chemical substance? If so, copies of such determinations must be included in the substantiation.</p> <p>(L) If the notice includes a health and safety study concerning the new chemical substance, the submitter must also answer the questions in §720.90(b)(2).</p>
