Intro3.

As the letter stated, part of the mission of the Economic Research Service is to strengthen the economy and vitality of rural communities in the US. This study is designed to learn, from a community perspective, how rural health care systems and economies affect each other, and how a community's unique assets can be used to strengthen them both. The information will be valuable for evaluating current and future rural policies, both state-wide and nationally, and for local decision-making in rural areas.

[TOWN, STATE] is one of the communities chosen to participate in this groundbreaking research. During the next several weeks we will be talking with a variety of health care providers and community leaders in your area. We understand that you are a [RESPONDENT TYPE], and we would like to interview you over the telephone for about [IF PROVIDER, 20 to 25 minutes. IF STAKEHOLDER, 15 to 20 minutes]. The interview can be scheduled for a day and time that's as convenient for you as possible. Your participation is voluntary; however your input is very important to get an accurate understanding of the role that the health care industry plays in your community.

Is this a good time for you, or do you prefer to schedule an appointment?

**IF WILLING & AVAILABLE FOR INTERVIEW, CONTINUE BELOW.
IF CALLBACK NEEDED, SCHEDULE A DAY/TIME TO CALL BACK.
IF INTERVIEW IS REFUSED, THANK THE RESPONDENT & CLOSE THE CALL.**

Before we begin, I need to assure you that all the information you provide will be used only for this research. Your responses will be kept completely confidential and reported in summary form only.

[IF Intro1 = 2 AND Intro2 = 2, INSERT THE FOLLOWING:
