**Invitation from ResearchNow to Participate in Study**

**Subject Line:**

Get Rewarded for Your Time – Study about the chemicals in tobacco products.

**e-Mail Copy:**

Dear <Parent first name> ,

Your e-Rewards(R) profile indicates a **\*13-17\*** year old may reside in your household. Based on that information, we are pleased to cordially invite your **\*13-17\*** year old to participate in a teen-focused research survey about the chemicals in tobacco products.

e-Rewards believes another way to conduct market research with children is to first garner the help of their parent or guardian. We hope that you will invite your child to share his or her opinions. If your child qualifies and completes the survey:

Full reward amount: \$7.50 in e-Rewards Currency

Full survey length: approximately 30 minutes

To complete the survey and earn e-Rewards Currency, simply click the link below, or copy the URL into your browser: <http://<%website%>/pro.do?FT=<%uniqueid%>>

We encourage you to respond quickly -- this e-Rewards invitation will be available only until a predetermined number of responses have been received. Please Note: you will only receive e-Rewards credit for taking the survey once.

Continue to check your inbox and your Member home page for future opportunities to earn e-Rewards Currency.

We value your time,  
The e-Rewards Team

## Parent Permission Form for Youth Recruited via Parent Panel

This study is funded by The Food and Drug Administration (FDA) and conducted by RTI International. For this study, we would like your son or daughter to complete a short survey. Each survey asks teenagers about the chemicals in tobacco products and about their attitudes and beliefs regarding tobacco use. About 1,400 teenagers will complete the survey. The survey will take about 30 minutes to complete. To show our appreciation, your family will receive \$7.50 in e-rewards Currency for your child's participation.

There are no physical risks associated with the study. Your child's participation in this research study is completely up to you and your child. The survey asks questions about your child's experiences and thoughts regarding cigarette smoking and chemicals found in tobacco; however, your child may skip any questions they do not want to answer. During the survey, we do not ask for your child's name; therefore, your child's name will not be connected to their answers. Furthermore, we will not share any information provided in the survey with anyone outside the research team.

To ensure your child's answers are kept private, we will ask your child to please review the list and take the survey in a place where no one can look over his/her shoulder and view his/her answers. We also ask that your child complete the survey in one sitting and close the screen when he/she is done taking the survey.

If you or your child have any questions about the study, you may contact the RTI Project Coordinator, Jonathan Blitstein, at [jblitstein@rti.org](mailto:jblitstein@rti.org). If you or your child have any questions about your rights as a study participant, you may contact RTI's Office of Research Protection by phone at 1-866-214-2043 or by email at [orpe@rti.org](mailto:orpe@rti.org).

I have read and understand the information provided above and the study purpose and procedures are clear to me. (Parent chooses the appropriate box via a mouse click.)

- Yes, I agree to let my child participate in this study.
- No, I do not wish to let my child participate in this study.

## Youth Assent Form for Youth Recruited via Parent and Youth Panels

This study is funded by the Food and Drug Administration (FDA) and conducted by RTI International. For this study, we would like you complete a short survey. Each survey asks teenagers about the chemicals in tobacco products and about their attitudes and beliefs regarding tobacco use. About 1,400 teenagers will complete the survey. The survey will take about 30 minutes to complete. To show our appreciation, your family will receive \$7.50 e-rewards for your participation.

There are no physical risks associated with the study. Your participation in this research study is completely up to you. The survey asks questions about your experiences and thoughts regarding tobacco products and cigarette smoking; however, you may skip any questions you do not want to answer.
