

Participants Wanted for Research Study

The National Center for Health Statistics is looking for adults aged 18 and over with children living in the household to answer a variety of health questions that may be asked on a national survey. We want to talk to parents or guardians of children 2 to 17 years of age who may have difficulties in the following areas: seeing, hearing, walking, learning, behavior. We are also looking for adults who have awareness of death rates in the U.S., and smokers. The survey research interview will be no longer than 60 minutes and participants will receive \$50.
