## **Attachment 2c: Respondents recruited through Procurement Centers – Round 3**

For respondents recruited through Procurement Centers: staff would read the following text to the individual, *“You may be eligible to participate in a research study [today/on specified date] if you would like to do so. Researchers from the National Center for Health Statistics are evaluating questions used for collecting health history and social information on deceased potential donors of organs and tissues including questions on medical history, sexual history, current medication, and travel history. The interview would take 60 minutes and you would be paid \$50.00 for your participation. You are under no obligation to participate in this study. If you are interested in participating in this study or if you would like more information about the study, Dr. Stephanie Willson from the National Center for Health Statistics can meet with you and answer any questions you might have.”*
