

# Participants Wanted for Research Study

The National Center for Health Statistics is looking for adults aged 18 and over with children living in the household to answer a variety of health questions that may be asked on a national survey. We want to talk to parents or guardians of children 5 to 17 years of age who may have difficulties in the following areas: seeing, hearing, walking, learning, behavior, depression or anxiety. The survey research interview will be no longer than 60 minutes and participants will receive \$40.
