Public reporting burden for this voluntary collection of information is estimated to average 30 MINUTES per response. A Federal agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. Comments regarding this collection of information should be directed to: U.S. Geological Survey, Statistics and Information Systems Section, 988 National Center, Reston, VA 20192. **Please do not mail canvass forms to this address.**

Collection of nonfuel minerals information is authorized by Public Law 96-479 and the Defense Production Act. This information is used to support executive policy decisions pertaining to emergency preparedness, national defense, and analyses for minerals legislation and industrial trends. The USGS relies on your voluntary and timely response to assure that its information is complete and accurate. Please complete and return a separate form for each plant that was active during the calendar year in the enclosed envelope or fax to the above toll-free number. Use zero (0) when appropriate. Please do not make entries in shaded areas. Additional forms are available upon request.

If separate reports are not feasible, a combined report will be acceptable provided you furnish the names and locations of all plants included in the consolidated report. In completing this form, reasonable estimates should be used wherever exact data are not available.

If you have any questions concerning completion of this form, please contact the Mineral Commodities Data Unit, U.S. Geological Survey, 985 National Center, Reston, VA 20192, Telephone (703) 648-7960.

*Report all quantities to the nearest pound or number, as noted, and cost or market value f.o.b. plant to the nearest dollar.*

**DEFINITIONS FOR UNCUT RAW QUARTZ AND PRODUCTS**

1. Lasca is raw lump quartz used as a feedstock for cultured quartz production. Other silica feedstocks include any other source of silica such as quartzite, flint, sandstone, etc.
2. Cultured quartz is crystal grown from lasca or other silica feedstock.
3. "As grown" quartz crystal is raw uncut crystal in the same form as it was when removed from the autoclave.
4. Lumbered quartz is cultured quartz that has been cut or milled to remove unusable faces.
