

National Survey of Miners' Voice in the Workplace

Implementation Mode: Web

The following survey is the web version. This version will be implemented by recruiting miners to visit a website to take the survey. Recruitment will be done through advertisements placed in local newspapers and radio stations in a test market. This approach was recommended by the Technical Working Group for this project.

The skip patterns for this version will be programmed into web survey software (Vovici). We have included markers in this review version to indicate what will appear on screen using “[Screen #]” to identify screens. Respondents will see a “progress bar” at the bottom of each page to indicate how far they have gone in the survey.

For questions 9-26 which ask whether miners are aware of, read, and would recommend specific MSHA outreach materials, some additional HTML coding may be implemented. Each outreach material has three questions: (a) have you seen the material, (b) have you read/used it, and (c) would you recommend it. These include skip patterns: yes for (a) triggers (b), and yes for (b) triggers (c). To avoid the need to use three separate screens for each outreach material, which could be tedious for respondents, some simple HTML coding may be used to “hide” the (b) and (c) questions on a page unless they are triggered by the skip patterns. Thus, when a respondent reaches one of these questions, he/she would see the image and question (a). If the respondent answers “yes” for (a), question (b) would appear, and answering “yes” for (b) would cause (c) to appear.

National Survey of Miners' Voice in the Workplace

OMB Control No. xxxx-xxxx. Expires xx/xx/2014

[Begin Survey!](#)

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless such collection displays a valid OMB control number. Public reporting burden for this collection of information is estimated to average 25 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. The obligation to respond to this collection is voluntary. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the U.S. Department of Labor-OASP, Chief Evaluation Office, Room S-2312, 200 Constitution Avenue, N.W., Room N-1301, Washington, DC 20210. Note: Please do not return the completed survey to this address.

Thank you for answering some questions about mine safety and health!

- **Your honest answers are very important.**
They will help MSHA promote safe work practices in mines.
- **Individual responses to these surveys will not be shared with any employer, union, government agency.** We will protect your privacy to the extent allowed by law. Please do not provide your name or any other identifying information.
- **If you have any questions about this survey:**
Call Eastern Research Group, Inc. (ERG) at **1-877-xxx-xxxx**. To report a safety or other problem: Call MSHA's Hotline at **1-800-746-1553**.

Please answer these questions to see if you can take this survey.

a) **I work in coal mining or I have worked in coal mining in the last 2 years.**

2. Please tell us how much you agree with these statements:

In this survey "Safety hazard" means a condition or practice that, if not fixed, could cause a serious accident, injury, illness, or death.

"My mine" means the mine site where you work (or where you last worked).

	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
I trust my mine management to provide a safe and healthful workplace.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
My mine is a safe mine.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
If I point out a safety hazard , my mine management fixes the problem.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I can point out a safety hazard without worrying about the consequences.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
If I could, I would leave my job to work at a different mine.	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

The following questions ask about your knowledge of your rights under the Mine Safety and Health Act. This is not a test. Your answers will help MSHA know how to tell miners about of their rights.

“Fully aware” means you already knew about the right, you would not need to ask.

27. Before taking this survey, I was **fully aware** that I have the legal right to:

	Yes, I was aware.	No, I was not aware.
Make a complaint about a possible danger or safety violation to my mine management.	<input type="radio"/>	<input type="radio"/>
Tell MSHA or a state agency about a possible safety hazard.	<input type="radio"/>	<input type="radio"/>
Choose a representative to participate in all aspects of a mine inspection.	<input type="radio"/>	<input type="radio"/>
Get an X-ray for signs of Black Lung, paid for by my employer.	<input type="radio"/>	<input type="radio"/>
Ask to transfer to a less dusty job if I am diagnosed with Black Lung.	<input type="radio"/>	<input type="radio"/>
Refuse to operate equipment I am not trained to use, and tell my supervisor.	<input type="radio"/>	<input type="radio"/>
Refuse to work in conditions I believe to be unsafe.	<input type="radio"/>	<input type="radio"/>
Complain to MSHA if I have been retaliated against for exercising my rights under the Mine Act.	<input type="radio"/>	<input type="radio"/>
