Partner Profile (Optional)

All Green Power Partners have the opportunity to have a Partner Profile on the Partnership's Web site. The Partner Profile is a short paragraph (200 word limit) that briefly describes a Partner's organization, its decision to purchase green power, its experience to date with green power, and may include a quote about the benefits of green power to the organization. (Please be sure to include the name and title of the person the quote is attributed to.) You may revise your existing Partner Profile below.
