

**Evaluation of the Minnesota Reading Corps  
Email Invitation to Complete Member Baseline Survey**

---

[Applicant will receive an email from NORC in July of 2012 with an invitation to complete a survey.]

We would like to ask you to participate in an important survey of Minnesota Reading Corps (MRC) applicants. This brief survey will generate valuable information as to why applicants want to serve as tutors, the types of people who apply to the MRC program, and what they might do after the program. The information you provide will also be used to better understand the needs and experiences of people like you. This survey is part of an important study that is exploring how the MRC affects students who receive the tutoring, as well as how it might affect the tutors themselves.

We have included a unique User ID and password for you to access the survey. To participate in this survey, please click on the link below. You will then be prompted to enter your ID and password.
