

Project title: Study of Electronic Health Record Usability
Part 1 – Web Survey of EHR Usability
Recruitment Solicitation – Email text

You have been invited to participate in a research study involving electronic health record (EHR) technology. Participating in this study is completely voluntary.

Your participation involves completing a web survey about your experiences with and perceptions of EHRs. You can expect the web survey to take approximately 60 minutes to complete.

You will never be asked to enter your name or other identifying information. Moreover, we will NOT capture any other identifying information, such as your IP address.

Want to participate? You can access the web survey using the following link:
[WEB SURVEY LINK]

Questions? Please contact [CONTACT INFORMATION]

[LOGO OF INSTITUTION*] [LOGOS OF RESEARCH INSTITUTIONS*]

You can access the web survey from now until [END OF RESEARCH PERIOD].
