

**OMB Control No. 0693-0043 – NIST Generic Clearance for Usability Data Collections**  
**Project title: Study of Electronic Health Records (EHR) Usability**  
**Part 3 Direct Observations of EHR Users**  
**Recruitment Solicitation – Email text**

You have been invited to participate in a research study involving electronic health record (EHR) technology. Participating in this study is completely voluntary.

Your participation involves allowing researchers to observe how you interact with EHR technology.

We will be conducting observations on these days:  
[DATES OF STRUCTURED INTERVIEWS]

Want to participate?
