1. Are you still interested in participating? If yes:

This is a survey of 10 minutes that asks questions about your health and if/or how often you may feel angry, sad, worried and substance use. Some participants will receive a second phone call with an interview that will last approximately 30 minutes. It will ask similar questions to this phone interview.

Some of the questions that we ask may be uncomfortable. If you are uncomfortable, you can skip any part of the survey. You are in charge.

All information we collect from you is protected by law and we keep all of it private. However, if we learn that you or someone else is harming you, your child or others around you, we may be required by law to report this to the proper authority of social services agency in your community.

Do you give your verbal permission to continue in this study? If yes, start REDCap.

3. Time: I understand that it is sometimes difficult to find half an hour. We don’t have to complete the entire survey in one sitting. Why don’t we get started and we’ll stop when you need to go?
