Before we begin this set of questions, let’s review the 6-month timeline that we’ll be using. It is similar to the one we have used with the other questionnaires.

Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle No and continue with the next service description. Only ask “c” if caregiver answered “yes” to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to “d.”]

Now I'm going to ask you some questions about the specific services that (*child's name*) or your family received in the past 6 months. First, I'll briefly describe a type of service to you, then I'll ask whether or not (*child's name*) or your family received the service. If you received the service, I will ask you how often the service was received. Please try to estimate, to the best of your ability, the number of **days** you

received that service over the entire 6-month period. Remember that all of your answers will be kept confidential.

Before we begin this set of questions, let’s review the 6-month timeline that we’ll be using. It is similar to the one we have used with the other questionnaires.

[TIMELINE]

Since some of the following questions only apply to children who have had a problem with substance abuse, I need to ask you about this again.

Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle No and continue with the next service description. Only ask “c” if caregiver answered “yes” to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to “d.”]

Please try to estimate, to the best of your ability, the number of **days** they received that service over the entire 6-month period. Remember that all of your answers will be kept confidential.

Before we begin this set of questions, let's review the 6-month timeline that we'll be using. It is similar to the one we have used with the other questionnaires.

[TIMELINE]

Since some of the following questions only apply to children who have had a problem with substance abuse, I need to ask you about this again.

9. In the past 6 months, has (*child's name*) had a problem with substance abuse, including alcohol and drugs?

1 = No [For Questions #10–35, do **not** ask questions in column "c"]
2 = Yes [For Questions #10–35, ask questions in **all** columns]

[NOTE TO INTERVIEWER: For each of the following questions (#10–35), read the brief description of the service and site-specific names of the service. Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle No and continue with the next service description. Only ask "c" if respondent answered "yes" to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to "d."]

10. Assessment or evaluation		Assessment and evaluation services are used to determine a child’s psychological, social, and behavioral strengths and challenges. These are typically performed by a psychologist or psychiatrist. Types of assessment may include neurological, psychosocial, educational, and vocational.
11. Crisis stabilization		Crisis stabilization services are designed to stabilize a child experiencing acute emotional or behavioral difficulties. Teams respond rapidly to emergency requests for services (usually within one hour of receiving a request) wherever they are needed (like a person’s home, schools, businesses or hospitals). Upon arrival, team members will assess the situation, attempt to stabilize and diffuse the crisis, provide counseling as needed, and provide referrals to other resources. Peer support services include caregivers who have coped with children with a variety of problems (e.g., mental health and chronic illness) sharing their experiences and offering support in various forms to and caregivers who are coping with similar problems. Those providing these services should be trained in their roles as advocates and peer supports.
12. Family preservation		Family preservation services are designed to keep the family together during difficult or stressful times. These services may include 24-hour access to support services, intensive in-home support during crisis when a child is at risk of out-of-home placement or when the child is returning from out-of-home placement. These are distinct from crisis stabilization services as they may continue for several months during transition or crisis.

Now I'm going to ask you some questions about the specific services that (*child's name*) or his/her family received in the past 6 months. First, I'll briefly describe a type of service to you, then I'll ask whether or not (*child's name*) or his/her family received the service. Please try to estimate, to the best of your ability, the number of *days* they received that service over the entire 6-month period. Remember that all of your answers will be kept confidential.

Before we begin this set of questions, let's review the 6-month timeline that we'll be using. It is similar to the one we have used with the other questionnaires.

[TIMELINE]

Since some of the following questions only apply to children who have had a problem with substance abuse, I need to ask you about this again.

9. In the past 6 months, has (*child's name*) had a problem with substance abuse, including alcohol and drugs?

1 = No [For Questions #10–35, do **not** ask questions in column “c”]
2 = Yes [For Questions #10–35, ask questions in **all** columns]

[NOTE TO INTERVIEWER: For each of the following questions (#10–35), read the brief description of the service and site-specific names of the service. Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle **No** and continue with the next service description. Only ask “c” if respondent answered “yes” to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to “d.”]

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
10. Assessment or evaluation		Assessment and evaluation services are used to determine a child’s psychological, social, and behavioral strengths and challenges. These are typically performed by a psychologist or psychiatrist. Types of assessment may include neurological, psychosocial, educational, and vocational.
11. Crisis stabilization		Crisis stabilization services are designed to stabilize a child experiencing acute emotional or behavioral difficulties. These services may include the development of crisis plans, 24-hour telephone support, mobile outreach, intensive in-home support during crisis, and short-term emergency residential services.

Teams respond rapidly to emergency requests for services (usually within one hour of receiving a request) wherever they are needed (like a person’s home, schools, businesses or hospitals). Upon arrival, team members will assess the situation, attempt to stabilize and diffuse the crisis, provide counseling as needed, and provide referrals to other resources. Typically, within 24 hours a team member will make a follow-up call with the child and family to check on the child’s well-being.
11b. Family advocacy and peer support provided by trained advocate		Family advocacy services include speaking, acting or writing with minimal conflict of interest on behalf of the interests of child and family, in order to promote, protect and defend the welfare of and justice for the child and family by being on their side and no-one else’s, being primarily concerned with their fundamental needs, and remaining loyal and accountable to them in a way which is empathic and vigorous. Peer support services include caregivers who have coped with children with a variety of problems (e.g., mental health and chronic illness) sharing their experiences and offering support in various forms to and caregivers who are coping with similar problems. Those providing these services should be trained in their roles as advocates and peer supports.
12. Family preservation		Family preservation services are designed to keep the family together during difficult or stressful times. These services may include 24-hour access to support services, intensive in-home support during crisis when a child is at risk of out-of-home placement or when the child is returning from out-of-home placement. These are distinct from crisis stabilization services as they may continue for several months during transition or crisis.

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
