- 6a. Which best describes the special education classes that (*child's name*) took?
 - 1 = Special education classes where all the children in the class are receiving special education for all or most of the day, often referred to as self-contained. Children in these classes may spend a portion of their day in general education classes, such as art, music, and P.E.
 - 2 = Special education classes where all the children leave their general education class to receive special education instruction, in specific subjects, for a portion of the day. This is sometimes referred to as resource services or a pullout program.
 - 3 = Special education provided in the general education class, where some children receive special education and others do not. This is sometimes referred to as inclusion.
 - 4 = Special education provided on as-needed basis. Children do not receive support on a regular basis, can get support of they want it.

[NOTE TO INTERVIEWER: If necessary, please clarify for respondent that these classes may be cotaught by a regular education instructor and special education teacher, or by a teacher and an aide. A special education teacher may come to the class for part of the day to provide specialized instruction.]

7. In the past 6 months, did (*child's name*) have a one-on-one classroom aide for *any* reason, for any part of the school day? For example, a child might have an aide to help him/her with schoolwork, to help manage the child's behavior, and/or to help the child develop behavioral and social skills. [This does not include out-of-class visits to a counselor.]

[NOTE TO INTERVIEWER: If necessary, clarify for the respondent that out-of-school suspension is a temporary period during which a child is forbidden to go to school. The child is generally not required to continue with schoolwork during this time. The length of a suspension may vary widely but usually it is for a minimum of a day and a maximum of 10 days. The child is expected to return to his/her school after the suspension. Out-of-school suspension is generally considered to be a more severe punishment than inschool suspension.]

8e. [IF EXPELLED] During the past 6 months, approximately how many times was (child's name) expelled?

times

[NOTE TO INTERVIEWER: This is when a child is removed from a school and is not expected to ever return. The child may be sent to an alternative school or a teacher may visit the child to teach him/her at home. It is also possible for a child to have multiple school expulsions. For example, if a child is expelled from one school system and transferred to another system, he/she can be expelled from the second system, resulting in multiple school expulsions. Some school systems may allow a child to return to his/her regular home school later, if the child's behavior or problems have improved.]

This set of questions is about problems that some children have in different areas of their life. For each potential problem, please think about (*child's name*) and tell me how much of a problem you think it has been for him/her during the past 6 months. Then, describe the extent of the problem on a scale from 0 to 4, with 0 being *no problem*, 1–3 being *some problem*, and 4 being *a very big problem*.

Instructions to respondent: This questionnaire contains 36 statements. For each statement, please focus on (child's name) and tell me whether you strongly agree with the statement, agree with the statement, are not sure, disagree with the statement, or strongly disagree with the statement. While you may not find a response that exactly states your feelings, please tell me the response that comes closest to describing how you feel now or within the past 6 months. [CARD]

Instructions

This questionnaire contains 36 statements. Read each statement carefully. For each statement, please focus on the child you are most concerned about, and circle the response that best represents your opinion.

Circle the SA if you strongly agree with the statement.

Circle the A if you agree with the statement.

Circle the NS if you are not sure.

Circle the D if you disagree with the statement.

Circle the SD if you strongly disagree with the statement.

For example, if you sometimes enjoy going to the movies, you would circle A in response to the following

I enjoy going to the movies.

SA A NS D SD

While you may not find a response that exactly states your feelings, please circle the response that comes closest to describing how you feel. YOUR FIRST REACTION TO EACH QUESTION SHOULD BE YOUR ANSWER.

Circle only one response for each statement, and respond to all statements. DO NOT ERASE! If you need to change an answer, make an "X" through the incorrect answer and circle the correct response. For example:

I enjoy going to the movies.

SA A NS 🔊 🗊

Before responding to the statements, write your name, gender, date of birth, ethnic group, marital status, child's name, child's gender, child's date of birth, and today's date in the spaces at the top of the questionnaire.

Section 6. Response Form

Directions: The *Preschool Behavioral and Emotional Rating Scale* (PreBERS) contains a series of statements that are used to rate a preschool child's behaviors and emotions in a positive way. Read each statement and circle the number that corresponds to the rating that best describes the child's status over the past 2 months. If the statement is very much like the child, circle the 3; if the statement is like the child, circle the 2; if the statement is not much like the child, circle the 1; if the statement is not at all like the child, circle the 0. In making your rating, it is important that you consider this child's behavior in relation to other preschool children of similar age and gender. Rate each statement to the best of your knowledge of the child.

CHIL'D ID:					

The next set of questions is about specific types of services (child's name) and/or your family may have received in the past 6 months. Some of the questions are about services that (child's name) may have received, while others are about services your family may have received related to (child's name)'s care, or services that (child's name) and your family may both have received. These services may include treatment received from a therapist or clinician such as individual therapy, or support such as respite care, case management, or transportation.

Please keep in mind the various services your child and family have received from all the people, organizations, and agencies involved with your child during the past 6 months. Services may include those received through your child's school, a child welfare agency, the police, or the courts. All of these services and agencies are part of the service system in your community that works with children and families.

- 1. Within the past 6 months, has (*child's name*) or your family received **any** services related to the emotional or behavioral problems (*child's name*) might have had? [NOTE TO INTERVIEWER: Please show respondent the full list of services and the description of each service.]
 - $1 = N_0$
 - 2 = Yes [GO TO QUESTION #7]
 - 1a. What was the reason that (child's name) and/or your family did not receive any services?
 - 1 = Completed services/discharged
 - 2 = Decided not to continue services
 - 3 = Did not need services
 - 4 = Was not aware of any services or no services were offered
 - 5 =Was not evaluated
 - 6 = Problems with case managers (e.g., case managers not showing up or contacting family)
 - 7 = Ineligible for services
 - 8 = Moved out of area *and* not received any services in the new area
 - 9 = Child placed out of area (hospital, residential center, detention) *and* not received any services in the new area
 - 10 = Scheduling challenges
 - 11 = Was evaluated, but waiting for assessment results
 - 12 = Other—please specify

1b. What was the last date (*child's name*) and your family received any services?

_____(mm/dd/yyyy)

[IF QUESTION #1a = 2, GO TO QUESTION #1c. OTHERWISE, END OF QUESTIONNAIRE.]

1c. Why did your family decide not to continue services?

[IF NO SERVICES WERE RECEIVED IN THE PAST 6 MONTHS, END OF QUESTIONNAIRE.]

For all variables and data elements:

Date last modified: December 2009

666 = Not Applicable

 $888 = Don't \ Know$

777 = Refused

999 = Missing

[NOTE TO INTERVIEWER: Questions #2-6 are skipped, as they are not applicable at intake.]

- 7. What agencies were involved in providing services to (child's name) and your family? [Select all that apply]
 - 1 = Mental health
 - 2 = Education
 - 3 = Social services/child welfare
 - 4 = Juvenile justice
 - 5 = Health
 - 6 = Family court
 - 7 = Other—please specify _____

[CARD 2]

8. Please tell me if (*child's name*) or your family received services in any of the following locations in the past 6 months and whether these locations were convenient. [Select all that apply]

Service Location	months receive s	past 6, did you ervices in cation?		loca	the tion nient?

Now I'm going to ask you some questions about the specific services that (child's name) or your family received in the past 6 months. First, I'll briefly describe a type of service to you, then I'll ask whether or not (child's name) or your family received the service. If you received the service, I will ask you how

often the service was received. Please try to estimate, to the best of your ability, the number of days you received that service over the entire 6-month period. Remember that all of your answers will be kept confidential.

Before we begin this set of questions, let's review the 6-month timeline that we'll be using. It is similar to the one we have used with the other questionnaires.

[TIMELINE]

Since some of the following questions only apply to children who have had a problem with substance abuse, I need to ask you about this again.

9. In the past 6 months, has (child's name) had a problem with substance abuse, including alcohol and drugs?

1 = No [For Questions #10–35, do **not** ask questions in column "c"]

2 = Yes [For Questions #10–35, ask questions in **all** columns]

[NOTE TO INTERVIEWER: For each of the following questions (#10–35), read the brief description of the service and site-specific names of the service. Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle No and continue with the next service description. Only ask "c" if caregiver answered "yes" to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to "d."]

Service Definitions and Descriptions (To be used with the MSSC–RC questionnaire)

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
10. Assessment or evaluation		Assessment and evaluation services are used to determine a child's psychological, social, and behavioral strengths and challenges. These are typically performed by a psychologist or psychiatrist. Types of assessment may include neurological, psychosocial, educational, and vocational.
11. Crisis stabilization		Crisis stabilization services are designed to stabilize a child experiencing acute emotional or behavioral difficulties. These services may include the development of crisis plans, 24-hour telephone support, mobile outreach, intensive in-home support during crisis, and short-term emergency residential services.
11a. Mobile crisis outreach		Mobile crisis outreach services are provided by team members (usually trained professionals holding either a master's level or bachelor's level degree in the social services field) who undergo intensive training in counseling and crisis intervention skills and their application. Teams respond rapidly to emergency requests for services (usually within one hour of receiving a request) wherever they are needed (like a person's home, schools, businesses or hospitals). Upon arrival, team members will assess the situation, attempt to stabilize and diffuse the crisis, provide counseling as needed, and provide referrals to other resources. Typically, within 24 hours a team member will make a follow-up call with the child and family to check on the child's well-being.
11b. Family advocacy and peer support provided by trained advocate		Family advocacy services include speaking, acting or writing with minimal conflict of interest on behalf of the interests of child and family, in order to promote, protect and defend the welfare of and justice for the child and family by being on their side and no-one else's, being primarily concerned with their fundamental needs, and remaining loyal and accountable to them in a way which is empathic and vigorous. Peer support services include caregivers who have coped with children with a variety of problems (e.g., mental health and chronic illness) sharing their experiences and offering support in various forms to and caregivers who are coping with similar problems. Those providing these services should be trained in their roles as advocates and peer supports.
12. Family preservation		Family preservation services are designed to keep the family together during difficult or stressful times. These services may include 24-hour access to support services, intensive in-home support during crisis when a child is at risk of out-of-home placement or when the child is returning from out-of-home placement. These are distinct from crisis stabilization services as they may continue for several months during transition or crisis.

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
13. Medication treatment monitoring		Medication treatment and monitoring services typically include the prescription of psychoactive medications by a physician (e.g., psychiatrist) that are designed to alleviate symptoms and promote psychological growth. Treatment includes periodic assessment and monitoring of the child's reaction(s) to the drug.
14. Group therapy		Group therapy relies on interaction among a group of individuals, which could include children or children and adults. Groups are typically facilitated by a therapist to promote psychological and behavior change. Groups typically meet together on a regular basis.
15. Individual therapy		Individual therapy relies on interaction between therapist/clinician and child to promote psychological and behavior change.
16. Case management		Case management or service coordination involves finding and organizing multiple treatment and support services, and may also include preparing, monitoring, and revising service plans; and advocating on behalf of the child and family. Case managers may also provide supportive counseling.
17. Family therapy		Family therapy involves a variety of family members such as caregivers and/or siblings with or without the child present. Interaction among family members is typically facilitated by a therapist or counselor.
18. Day treatment		Day treatment consists of intensive, nonresidential services that include an array of counseling, education, and/or vocational training. These services involve a child or youth for at least 5 hours a day, for at least 3 days a week, and are offered in a variety of settings, including schools, mental health centers, hospitals, or other community locations.
19. Behavioral/therapeutic aide		Behavioral or therapeutic aide services are the supervision of a child by trained adults in the home, the school, or other community locations. The aide might provide support and may assist with tutoring or recreational activities.
20. Independent living		Independent living services are designed to prepare older adolescents to live independently and reduce their reliance on the family or service system. These services may include social and community living skills development and peer support (e.g., look for job, pay bills, job skill training, etc.).
21. Youth transition		Transition services are designed to help older adolescents to move from the child system to the adult mental health system.

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
22. Caregiver or family support		Caregiver or family support services are provided to caregivers or siblings (e.g., family activities, behavior management training, parent classes, support groups, individual therapy for caregiver or other family members). <i>Do not include</i> recreational activities, behavioral/therapeutic aide, transportation services, respite care, afterschool activities or child care, which are described in other questions.
23. Vocational training		Vocational training refers to the development life skills and job skills designed to assist young adults with the transition to independent living. (Parenting classes, managing money, holding a job etc.)
24. Recreational activities		Recreational activities are the use of community recreation resources by the child that may include YMCA or other physical fitness activities, youth sports programs, karate classes, club memberships, summer camps, arts activities, etc.
25. Afterschool programs or child care		Regular afterschool programs and/or other types of child care are commonly arranged so that the caregiver(s) can work and/or attend school. Child care includes day care as well as care during afterschool hours, evenings and/or weekends. Afterschool programs <i>may</i> be recreational and/or educational (e.g., supervised sports, tutoring, help with homework) but their primary purpose is to provide supervision of youths so that caregivers may work, attend school, etc. <i>Do not include</i> respite, recreational activities, behavioral or therapeutic aide, or caregiver/family support services that are described in other questions.
26. Transportation		Transportation services are transportation to appointments (e.g., therapy sessions) and other scheduled mental health services and activities, or reimbursement for public transportation, van rentals, etc.
27. Respite care		Respite care is a planned break for families wherein trained parents or counselors assume the duties of caregiving to allow the parent/caregivers a break. The service may be provided in the child's home or in other community locations or in residential settings.
28. Residential therapeutic camp or wilderness program		A residential therapeutic camp or wilderness program involves children/youth and staff living together in a wilderness or other camp environment often located outside of the community. Treatment often focuses on group process, and social skills development.
29. Inpatient hospitalization		Inpatient hospitalization is the placement of child/youth in a hospital for observation, evaluation, and/or treatment. Services are usually medically oriented and may include 24-hour supervision; services may be used for short-term treatment and crisis stabilization.

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
30. Residential treatment center		A residential treatment center is a secure residential facility that typically serves 10 or more children and youth and provides 24-hour staff supervision, and may include individual therapy, group therapy, family therapy, behavior modification, skills development, education, and recreational services. Lengths of stay tend to be longer in residential treatment centers than in hospitals.
31. Therapeutic group home		A therapeutic group home is a 24-hour residential placement in a home-like setting with a relatively small group of children with emotional and/or behavior problems. Therapeutic care employs a variety of treatment approaches and includes counseling, crisis support, behavior management, and social and independent living skills development.
32. Therapeutic foster care		A therapeutic foster home is a 24-hour residential placement in a home with caregivers who are trained in behavior management and social and independent living skills development for children and youth with emotional and behavioral problems.
33. Flexible funds		Flexible funds are money for non-mental health service items such as rent, utilities, or temporary living expenses (e.g., clothes, food, bills, a special item, car repairs, etc.).
34. Informal support		Informal support is defined as assistance from persons who provide support to the child and family <i>without compensation from any formal service system</i> . This type of support includes asking a relative or friends to babysit a child, support received from someone's church, etc.
35. School-based services		School-based services related to child's emotional and behavioral problems often include educational assessment or testing; a self-contained special education classroom; a resource room; a one-to-one classroom aide; and/or an Individualized Education Plan (IEP).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control number for this project is 0930-0307. Public reporting burden for this collection of information is estimated to average 15 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. 1 = No [GO TO QUESTION #5]

2 = Yes

2a. Did (*child's name*) and your family receive wraparound services? By wraparound, we mean a process through which providers collaborate with your family to develop an integrated and creative service plan tailored to the strengths and specific needs of your child and family using a team that includes your family, teachers, clinicians, friends, and a facilitator to coordinate the process. Services are "wrapped around" your child and family in your home, school, and community rather than less accessible or more restrictive places (like the provider's office or a residential treatment center).

Now I'm going to ask you some questions about the specific services that (child's name) or your family received in the past 6 months. First, I'll briefly describe a type of service to you, then I'll ask whether or not (child's name) or your family received the service. If you received the service, I will ask you how often the service was received. Please try to estimate, to the best of your ability, the number of days you

received that service over the entire 6-month period. Remember that all of your answers will be kept confidential.

Before we begin this set of questions, let's review the 6-month timeline that we'll be using. It is similar to the one we have used with the other questionnaires.

[TIMELINE]

Since some of the following questions only apply to children who have had a problem with substance abuse, I need to ask you about this again.

9. In the past 6 months, has (child's name) had a problem with substance abuse, including alcohol and drugs?

1 = No [For Questions #10–35, do **not** ask questions in column "c"]

2 = Yes [For Questions #10–35, ask questions in **all** columns]

[NOTE TO INTERVIEWER: For each of the following questions (#10–35), read the brief description of the service and site-specific names of the service. Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle No and continue with the next service description. Only ask "c" if caregiver answered "yes" to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to "d."]

Service Definitions and Descriptions (To be used with the MSSC–RC questionnaire)

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions						
10. Assessment or evaluation		Assessment and evaluation services are used to determine a child's psychological, social, and behavioral strengths and challenges. These are typically performed by a psychologist or psychiatrist. Types of assessment may include neurological, psychosocial, educational, and vocational.						
11. Crisis stabilization		Crisis stabilization services are designed to stabilize a child experiencing acute emotional or behavioral difficulties. These services may include the development of crisis plans, 24-hour telephone support, mobile outreach, intensive in-home support during crisis, and short-term emergency residential services.						
11a. Mobile crisis outreach		Mobile crisis outreach services are provided by team members (usually trained professionals holding either a master's level or bachelor's level degree in the social services field) who undergo intensive training in counseling and crisis intervention skills and their application. Teams respond rapidly to emergency requests for services (usually within one hour of receiving a request) wherever they are needed (like a person's home, schools, businesses or hospitals). Upon arrival, team members will assess the situation, attempt to stabilize and diffuse the crisis, provide counseling as needed, and provide referrals to other resources. Typically, within 24 hours a team member will make a follow-up call with the child and family to check on the child's well-being.						
11b. Family advocacy and peer support provided by trained advocate		Family advocacy services include speaking, acting or writing with minimal conflict of interest on behalf of the interests of child and family, in order to promote, protect and defend the welfare of and justice for the child and family by being on their side and no-one else's, being primarily concerned with their fundamental needs, and remaining loyal and accountable to them in a way which is empathic and vigorous. Peer support services include caregivers who have coped with children with a variety of problems (e.g., mental health and chronic illness) sharing their experiences and offering support in various forms to and caregivers who are coping with similar problems. Those providing these services should be trained in their roles as advocates and peer supports.						
12. Family preservation		Family preservation services are designed to keep the family together during difficult or stressful times. These services may include 24-hour access to support services, intensive in-home support during crisis when a child is at risk of out-of-home placement or when the child is returning from out-of-home placement. These are distinct from crisis stabilization services as they may continue for several months during transition or crisis.						

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
13. Medication treatment monitoring		Medication treatment and monitoring services typically include the prescription of psychoactive medications by a physician (e.g., psychiatrist) that are designed to alleviate symptoms and promote psychological growth. Treatment includes periodic assessment and monitoring of the child's reaction(s) to the drug.
14. Group therapy		Group therapy relies on interaction among a group of individuals, which could include children or children and adults. Groups are typically facilitated by a therapist to promote psychological and behavior change. Groups typically meet together on a regular basis.
15. Individual therapy		Individual therapy relies on interaction between therapist/clinician and child to promote psychological and behavior change.
16. Case management		Case management or service coordination involves finding and organizing multiple treatment and support services, and may also include preparing, monitoring, and revising service plans; and advocating on behalf of the child and family. Case managers may also provide supportive counseling.
17. Family therapy		Family therapy involves a variety of family members such as caregivers and/or siblings with or without the child present. Interaction among family members is typically facilitated by a therapist or counselor.
18. Day treatment		Day treatment consists of intensive, nonresidential services that include an array of counseling, education, and/or vocational training. These services involve a child or youth for at least 5 hours a day, for at least 3 days a week, and are offered in a variety of settings, including schools, mental health centers, hospitals, or other community locations.
19. Behavioral/therapeutic aide		Behavioral or therapeutic aide services are the supervision of a child by trained adults in the home, the school, or other community locations. The aide might provide support and may assist with tutoring or recreational activities.
20. Independent living		Independent living services are designed to prepare older adolescents to live independently and reduce their reliance on the family or service system. These services may include social and community living skills development and peer support (e.g., look for job, pay bills, job skill training, etc.).
21. Youth transition		Transition services are designed to help older adolescents to move from the child system to the adult mental health system.

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
22. Caregiver or family support		Caregiver or family support services are provided to caregivers or siblings (e.g., family activities, behavior management training, parent classes, support groups, individual therapy for caregiver or other family members). <i>Do not include</i> recreational activities, behavioral/therapeutic aide, transportation services, respite care, afterschool activities or child care, which are described in other questions.
23. Vocational training		Vocational training refers to the development life skills and job skills designed to assist young adults with the transition to independent living. (Parenting classes, managing money, holding a job etc.)
24. Recreational activities		Recreational activities are the use of community recreation resources by the child that may include YMCA or other physical fitness activities, youth sports programs, karate classes, club memberships, summer camps, arts activities, etc.
25. Afterschool programs or child care		Regular afterschool programs and/or other types of child care are commonly arranged so that the caregiver(s) can work and/or attend school. Child care includes day care as well as care during afterschool hours, evenings and/or weekends. Afterschool programs <i>may</i> be recreational and/or educational (e.g., supervised sports, tutoring, help with homework) but their primary purpose is to provide supervision of youths so that caregivers may work, attend school, etc. <i>Do not include</i> respite, recreational activities, behavioral or therapeutic aide, or caregiver/family support services that are described in other questions.
26. Transportation		Transportation services are transportation to appointments (e.g., therapy sessions) and other scheduled mental health services and activities, or reimbursement for public transportation, van rentals, etc.
27. Respite care		Respite care is a planned break for families wherein trained parents or counselors assume the duties of caregiving to allow the parent/caregivers a break. The service may be provided in the child's home or in other community locations or in residential settings.
28. Residential therapeutic camp or wilderness program		A residential therapeutic camp or wilderness program involves children/youth and staff living together in a wilderness or other camp environment often located outside of the community. Treatment often focuses on group process, and social skills development.
29. Inpatient hospitalization		Inpatient hospitalization is the placement of child/youth in a hospital for observation, evaluation, and/or treatment. Services are usually medically oriented and may include 24-hour supervision; services may be used for short-term treatment and crisis stabilization.

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
30. Residential treatment center		A residential treatment center is a secure residential facility that typically serves 10 or more children and youth and provides 24-hour staff supervision, and may include individual therapy, group therapy, family therapy, behavior modification, skills development, education, and recreational services. Lengths of stay tend to be longer in residential treatment centers than in hospitals.
31. Therapeutic group home		A therapeutic group home is a 24-hour residential placement in a home-like setting with a relatively small group of children with emotional and/or behavior problems. Therapeutic care employs a variety of treatment approaches and includes counseling, crisis support, behavior management, and social and independent living skills development.
32. Therapeutic foster care		A therapeutic foster home is a 24-hour residential placement in a home with caregivers who are trained in behavior management and social and independent living skills development for children and youth with emotional and behavioral problems.
33. Flexible funds		Flexible funds are money for non-mental health service items such as rent, utilities, or temporary living expenses (e.g., clothes, food, bills, a special item, car repairs, etc.).
34. Informal support		Informal support is defined as assistance from persons who provide support to the child and family <i>without compensation from any formal service system</i> . This type of support includes asking a relative or friends to babysit a child, support received from someone's church, etc.
35. School-based services		School-based services related to child's emotional and behavioral problems often include educational assessment or testing; a self-contained special education classroom; a resource room; a one-to-one classroom aide; and/or an Individualized Education Plan (IEP).

Now I'm going to ask you some questions about the specific services that (child's name) or his/her family received in the past 6 months. First, I'll briefly describe a type of service to you, then I'll ask whether or not (child's name) or his/her family received the service. If they received the service, I will ask you how often the service was received. Please try to estimate, to the best of your ability, the number of days they received that service over the entire 6-month period. Remember that all of your answers will be kept confidential.

Before we begin this set of questions, let's review the 6-month timeline that we'll be using. It is similar to the one we have used with the other questionnaires.

[TIMELINE]

Since some of the following questions only apply to children who have had a problem with substance abuse, I need to ask you about this again.

9. In the past 6 months, has (*child's name*) had a problem with substance abuse, including alcohol and drugs?

1 = No [For Questions #10–35, do **not** ask questions in column "c"]

2 = Yes [For Questions #10–35, ask questions in **all** columns]

[NOTE TO INTERVIEWER: For each of the following questions (#10–35), read the brief description of the service and site-specific names of the service. Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle **No** and continue with the next service description. Only ask "c" if respondent answered "yes" to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to "d."]

25. Afterschool programs or child care		Regular afterschool programs and/or other types of child care are commonly arranged so that the caregiver(s) can work and/or attend school. Child care includes day care as well as care during afterschool hours, evenings and/or weekends. Afterschool programs <i>may</i> be recreational and/or educational (e.g., supervised sports, tutoring, help with homework) but their primary purpose is to provide supervision of youths so that caregivers may work, attend school, etc. <i>Do not include</i> respite, recreational activities, behavioral or therapeutic aide, or caregiver/family support services that are described in other questions.
26. Transportation		Transportation services are transportation to appointments (e.g., therapy sessions) and other scheduled mental health services and activities, or reimbursement for public transportation, van rentals, etc.
27. Respite care		Respite care is a planned break for families wherein trained parents or counselors assume the duties of caregiving to allow the parent/caregivers a break. The service may be provided in the child's home or in other community locations or in residential settings.
28. Residential therapeutic camp or wilderness program		A residential therapeutic camp or wilderness program involves children/youth and staff living together in a wilderness or other camp environment often located outside of the community. Treatment often focuses on group process, and social skills development.
29. Inpatient hospitalization		Inpatient hospitalization is the placement of child/youth in a hospital for observation, evaluation, and/or treatment. Services are usually medically oriented and may include 24-hour supervision; services may be used for short-term treatment and crisis stabilization.

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
30. Residential treatment center		A residential treatment center is a secure residential facility that typically serves 10 or more children and youth and provides 24-hour staff supervision, and may include individual therapy, group therapy, family therapy, behavior modification, skills development, education, and recreational services. Lengths of stay tend to be longer in residential treatment centers than in hospitals.
31. Therapeutic group home		A therapeutic group home is a 24-hour residential placement in a home-like setting with a relatively small group of children with emotional and/or behavior problems. Therapeutic care employs a variety of treatment approaches and includes counseling, crisis support, behavior management, and social and independent living skills development.
32. Therapeutic foster care		A therapeutic foster home is a 24-hour residential placement in a home with caregivers who are trained in behavior management and social and independent living skills development for children and youth with emotional and behavioral problems.
33. Flexible funds		Flexible funds are money for non-mental health service items such as rent, utilities, or temporary living expenses (e.g., clothes, food, bills, a special item, car repairs, etc.).
34. Informal support		Informal support is defined as assistance from persons who provide support to the child and family <i>without compensation from any formal service system</i> . This type of support includes asking a relative or friends to babysit a child, support received from someone's church, etc.
35. School-based services		School-based services related to child's emotional and behavioral problems often include educational assessment or testing; a self-contained special education classroom; a resource room; a one-to-one classroom aide; and/or an Individualized Education Plan (IEP).

2. In the past 6 months, did (*child's name*) or his/her family receive services under (*site's specific name for the system of care*)?

1 = No [GO TO QUESTION #5]

2 = Yes

2a. Did (child's name) and his/her family receive wraparound services? By wraparound, we mean a process through which providers collaborate with the family to develop an integrated and creative service plan tailored to the strengths and specific needs of the child and family using a team that includes the family, teachers, clinicians, friends, and a facilitator to coordinate the process. Services are "wrapped around" the child and family in their home, school, and community rather than less accessible or more restrictive places (like the provider's office or a residential treatment center).

1 = No

2 = Yes

2b. Did (child's name) and his/her family have a youth and family team?

1 = No

2 = Yes

[NOTE TO INTERVIEWER: Questions #3 and #4 are skipped for "staff as caregiver" as they are not applicable for this respondent.]

5. In the past 6 months, did (*child's name*) or his/her family receive services provided in their community under *any other* programs, for example, (*site's specific name[s] for programs other than the system of care*)?

1 = No

2 = Yes

[NOTE TO INTERVIEWER: Clarify that these are services asked about in MSSC-RS.]

6. In the past 6 months, did (*child's name*) or his/her family receive services provided outside their community under *any other* programs, for example, (*site's specific name[s] for programs other than the system of care*)?

1 = No

2 = Yes

[CARD 1]

7. What agencies were involved in providing services to (child's name) and his/her family? [Select all that apply]

1 = Mental health

2 = Education

3 = Social services/child welfare

4 = Juvenile justice

5 = Health

6 = Family court

7 = Other—please specify _____

[CARD 2]

8. Please tell me if (*child's name*) or his/her family received services in any of the following locations in the past 6 months and whether these locations were convenient. [Select all that apply]

Now I'm going to ask you some questions about the specific services that (child's name) or his/her family received in the past 6 months. First, I'll briefly describe a type of service to you, then I'll ask whether or not (child's name) or his/her family received the service. If they received the service, I will ask you how often the service was received. Please try to estimate, to the best of your ability, the number of days they received that service over the entire 6-month period. Remember that all of your answers will be kept confidential.

Before we begin this set of questions, let's review the 6-month timeline that we'll be using. It is similar to the one we have used with the other questionnaires.

[TIMELINE]

Since some of the following questions only apply to children who have had a problem with substance abuse, I need to ask you about this again.

- 9. In the past 6 months, has *(child's name)* had a problem with substance abuse, including alcohol and drugs?
 - 1 = No [For Questions #10–35, do **not** ask questions in column "c"]
 - 2 = Yes [For Questions #10–35, ask questions in **all** columns]

[NOTE TO INTERVIEWER: For each of the following questions (#10–35), read the brief description of the service and site-specific names of the service. Then ask the respondent if this service was received in the past 6 months. If it was received, continue with additional follow-up questions about this service. If the service was not received, circle **No** and continue with the next service description. Only ask "c" if respondent answered "yes" to Question #9 (i.e., child had a problem with alcohol and drugs in the past 6 months), otherwise proceed to "d."]

Service Definitions and Descriptions (To be used with the MSSC–RS questionnaire)

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
10. Assessment or evaluation		Assessment and evaluation services are used to determine a child's psychological, social, and behavioral strengths and challenges. These are typically performed by a psychologist or psychiatrist. Types of assessment may include neurological, psychosocial, educational, and vocational.
11. Crisis stabilization		Crisis stabilization services are designed to stabilize a child experiencing acute emotional or behavioral difficulties. These services may include the development of crisis plans, 24-hour telephone support, mobile outreach, intensive in-home support during crisis, and short-term emergency residential services.
11a. Mobile crisis outreach		Mobile crisis outreach services are provided by team members (usually trained professionals holding either a master's level or bachelor's level degree in the social services field) who undergo intensive training in counseling and crisis intervention skills and their application. Teams respond rapidly to emergency requests for services (usually within one hour of receiving a request) wherever they are needed (like a person's home, schools, businesses or hospitals). Upon arrival, team members will assess the situation, attempt to stabilize and diffuse the crisis, provide counseling as needed, and provide referrals to other resources. Typically, within 24 hours a team member will make a follow-up call with the child and family to check on the child's well-being.
11b. Family advocacy and peer support provided by trained advocate		Family advocacy services include speaking, acting or writing with minimal conflict of interest on behalf of the interests of child and family, in order to promote, protect and defend the welfare of and justice for the child and family by being on their side and no-one else's, being primarily concerned with their fundamental needs, and remaining loyal and accountable to them in a way which is empathic and vigorous. Peer support services include caregivers who have coped with children with a variety of problems (e.g., mental health and chronic illness) sharing their experiences and offering support in various forms to and caregivers who are coping with similar problems. Those providing these services should be trained in their roles as advocates and peer supports.
12. Family preservation		Family preservation services are designed to keep the family together during difficult or stressful times. These services may include 24-hour access to support services, intensive in-home support during crisis when a child is at risk of out-of-home placement or when the child is returning from out-of-home placement. These are distinct from crisis stabilization services as they may continue for several months during transition or crisis.

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
13. Medication treatment monitoring		Medication treatment and monitoring services typically include the prescription of psychoactive medications by a physician (e.g., psychiatrist) that are designed to alleviate symptoms and promote psychological growth. Treatment includes periodic assessment and monitoring of the child's reaction(s) to the drug.
14. Group therapy		Group therapy relies on interaction among a group of individuals, which could include children or children and adults. Groups are typically facilitated by a therapist to promote psychological and behavior change. Groups typically meet together on a regular basis.
15. Individual therapy		Individual therapy relies on interaction between therapist/clinician and child to promote psychological and behavior change.
16. Case management		Case management or service coordination involves finding and organizing multiple treatment and support services, and may also include preparing, monitoring, and revising service plans; and advocating on behalf of the child and family. Case managers may also provide supportive counseling.
17. Family therapy		Family therapy involves a variety of family members such as caregivers and/or siblings with or without the child present. Interaction among family members is typically facilitated by a therapist or counselor.
18. Day treatment		Day treatment consists of intensive, nonresidential services that include an array of counseling, education, and/or vocational training. These services involve a child or youth for at least 5 hours a day, for at least 3 days a week, and are offered in a variety of settings, including schools, mental health centers, hospitals, or other community locations.
19. Behavioral/therapeutic aide		Behavioral or therapeutic aide services are the supervision of a child by trained adults in the home, the school, or other community locations. The aide might provide support and may assist with tutoring or recreational activities.
20. Independent living		Independent living services are designed to prepare older adolescents to live independently and reduce their reliance on the family or service system. These services may include social and community living skills development and peer support (e.g., look for job, pay bills, job skill training, etc.).
21. Youth transition		Transition services are designed to help older adolescents to move from the child system to the adult mental health system.

Generic Service Name	Site-Specific Service Name	Definitions and Descriptions
22. Caregiver or family support		Caregiver or family support services are provided to caregivers or siblings (e.g., family activities, behavior management training, parent classes, support groups, individual therapy for caregiver or other family members). <i>Do not include</i> recreational activities, behavioral/therapeutic aide, transportation services, respite care, afterschool activities or child care, which are described in other questions.
23. Vocational training		Vocational training refers to the development life skills and job skills designed to assist young adults with the transition to independent living. (Parenting classes, managing money, holding a job etc.)
24. Recreational activities		Recreational activities are the use of community recreation resources by the child that may include YMCA or other physical fitness activities, youth sports programs, karate classes, club memberships, summer camps, arts activities, etc.
25. Afterschool programs or child care		Regular afterschool programs and/or other types of child care are commonly arranged so that the caregiver(s) can work and/or attend school. Child care includes day care as well as care during afterschool hours, evenings and/or weekends. Some people feel that their cultural heritage, that is, their beliefs, traditions, values, and practices, is important to consider when working with people who provide services to their children. Others do not. This cultural heritage may be related to your race, ethnicity, religious affiliation, sexual orientation, income level, or geographic location.

I'm going to ask you a few questions about things that may or may not be important to you that have to do with cultural heritage, or "culture" for short. Please let me know if these things are not at all important, somewhat important, moderately important, very important, or extremely important.

[CARD 1]

				Moderately	Very	Extremely
		important	ımportant	important	important	important
1.	How important is it that you and your child have a service provider who understands the customs, practices, and traditions of <i>(child's name)</i> 's cultural heritage?	1	2	3	4	5
2.	How important is it that the beliefs, traditions, and practices of <i>(child's name)</i> 's cultural heritage be included in service planning and provision?	1	2	3	4	5
3.	How important is it that the person you and your child have seen most often about the emotional or behavioral problems (<i>child's name</i>) has been having is of the same cultural heritage as (<i>child's name</i>)?	1	2	3	4	5

4. In the past 6 months, has (*child's name*) or your family received any services related to the emotional or behavioral problems (*child's name*) might have had?

1 = No [END OF QUESTIONNAIRE] 2 = Yes

Now, I'd like you to think about the person you and your child have seen most often about the emotional or behavioral problems (*child's name*) has been having since [6-month date]. This person may be a care coordinator, case manager, therapist, or someone else.

5. Is this person of the same racial or ethnic group or culture as (*child's name*)?

1 = No2 = Yes

[NOTE TO INTERVIEWER: Remind the respondent to keep the same provider in mind for the next set of questions.]

Thinking about the provider that you and your child have seen most often in the past 6 months, please respond by indicating *never*, *not very often*, *sometimes*, *most of the time*, or *always* to the items that describe how often the statements are true for you and your child.

Please think about all the services (*child's name*) and your family may have received over the past 6 months. These services may include *treatment* received from a therapist or clinician such as individual therapy, or *support* such as case management, or transportation. These services may also include help (*child's name*) and your family may have received through your school, a child welfare agency, the police, and the courts. All of these services are part of the service system in your community that works with children and families.

Has (child's name) or your family received any services like these in the past 6 months?

1 = No [END OF QUESTIONNAIRE]

2 = Yes

We are interested in knowing what you think about the services your child and family have received during the past 6 months.

Your opinions are important, so please be honest and tell us what you think. We want to know how you felt, good *or* bad! Remember that what you say will be kept confidential. People who provide services to *(child's name)* and your family will never find out what you have told us.

I will read you several statements. For each of the statements, please tell me the extent to which you disagree or agree that the statement describes your experience.
