

Home Health Study Contract
Survey of Access to Home Health Services for Medicare Beneficiaries
Text for Reminder Postcard for Home Health Agencies

Last week a questionnaire was mailed to you to get your input on issues with access to home health services for certain vulnerable groups of Medicare beneficiaries. Your response is very important so that the results represent the experiences of all home health agencies serving Medicare beneficiaries.

If you have already completed the questionnaire, please accept our sincere thanks. If not, your prompt response would be greatly appreciated.

If you did not receive a questionnaire, it has been misplaced, or you have any questions about the study, please call us at 1-800-XXX-XXXX and ask for the Study Manager, Jane Doe.

Thank you for your valuable input.
