

Enter Observations

To submit observations fill out the form below. For help, scroll over (i) icons and row headers. Click on each species name to expand the phenophase reporting section. After you finish reporting, you can collapse the section again. When you have completed the form, click "Submit observations." Submitted observations will show in blue, but may be edited ([view edit](#)).

For each phenophase listed, click if the phenophase was occurring, if the phenophase was not occurring, or if you were not certain of the species or occurrence of the phenophase. If you did not look for the phenophase, do not click anything.
