

INSTRUCTIONS FOR PREPARING AND FILING REPORTS ON CFTC FORM 404S

(See Regulations Under the Commodity Exchange Act)

WHO SHOULD REPORT: All persons (individuals, partnerships, associations, corporations, or trusts) who hold or control a position in Referenced Contracts (RCs),¹ separately or in combination, net long or net short, that are in excess of the position limits pursuant to regulation § 151.4 and rely upon the bona fide hedging exemptions defined in regulation § 151.5(a)(3) and § 151.5(a)(4).

WHAT TO REPORT: As of the first business day a position limit specified in § 151.4 is first exceeded and separately for each business day during the month that the same person exceeds the limits up to and through the day the person's position first goes below the position limit, report the following, for RCs in each Core Referenced Futures Contract (CRFC)²:

the applicable date; the Commodity Reference Price (CRP) and the associated CRP Position Type Indicator; the clearing organization identifier, the clearing organization cleared product identifier,³ the notional quantity of the swap; the units measurement of the notional quantity of the swap; and the gross long and short position of swaps that qualify as a bona fide hedging transaction or position pursuant to § 151.5(a)(3) and § 151.5(a)(4). In general, all positions in swap Referenced Contracts should be measured on a futures-equivalent basis in the applicable CRFC. Conversions to CRFC equivalents should use economically reasonable and analytically supported deltas. Use units (e.g., 1000 bu., 1000 bbls., cwt., etc.) and conversion factors usual and common to your business. All positions for a date are those as of the firm's customary end-of-business day. If you have a zero position in a data element, indicate by a zero. Enter positive values for all position data (e.g., all short positions should be entered as positive values).

In addition, persons that avail themselves of cross-commodity hedges pursuant to § 151.5(a)(2)(viii) shall submit a description of the conversion methodology consistent with § 151.5(g).

WHEN TO REPORT: Report no later than the third business day after a position limit in a Referenced Contract is exceeded for the first time (i.e., you have not filed a monthly report for the last three months). Also, report daily data on the third business day following each calendar month in which the person exceeded such levels. Reports must be received not later than 9:00 a.m. Eastern Time of the applicable due date.

¹ A Referenced Contract is defined in § 151.1 Definitions.

² A Core Referenced Futures Contract is 1 of the 28 futures contracts listed in § 151.2.

³ Commodity Reference Price means the price series (including derivatives contract and cash market prices or price indices) used by the parties to a swap or swaption to determine payments made, exchanged, or accrued under the terms of the contracts (§ 20.1). For information on the CRP Position Type Indicator; clearing organization identifier; and clearing organization cleared product identifier see "Large Trader Reporting for Physical Commodity Swaps – Division of Market Oversight Guide to Part 20 Reports," Part II(d) available at www.cftc.gov.

WHERE TO REPORT: Generally, a CFTC Form 404S should be submitted via the CFTC’s web based Form 404S submission process at [[web address](#)]. If submission through the web-based form is impractical, the reporting trader shall contact the Commission at [[email address](#)] or [[phone number](#)] for further instruction.
